Management's Discussion and Analysis of Combined Financial Condition and Results of Operations

(dollars in thousands, except as noted)

The following discussion reviews the combined financial condition and results of operations of the Farm Credit Bank of Texas (bank), its affiliated Federal Land Credit Association (FLCA) and affiliated Agricultural Credit Associations (ACAs) for the six months ended June 30, 2017. The FLCA and ACAs are collectively referred to as associations, and the bank and its affiliated associations are collectively referred to as the district. These comments should be read in conjunction with the accompanying combined financial statements and footnotes, along with the 2016 Annual Report to stockholders. The accompanying financial statements were prepared under the oversight of the bank's audit committee.

RESULTS OF OPERATIONS

Net Income

Net income for the three months ended June 30, 2017, was \$99,402, a decrease of \$12,058, or 10.8 percent, over the same period of 2016. The decrease in net income consisted primarily of an \$11,989 increase in net interest income, offset by a \$14,881 decrease in provision for credit losses, a \$5,225 increase in noninterest expense and a \$4,052 decrease in noninterest income.

Net income for the six months ended June 30, 2017, was \$211,111, an increase of \$1,051, or 0.5 percent, over the same period of 2016. The increase in net income consisted primarily of a \$22,835 increase in net interest income, offset by a \$10,198 increase in noninterest expense, a \$9,251 increase in provision for credit losses and a \$2,703 decrease in noninterest income.

Net Interest Income

Net interest income for the three months ended June 30, 2017, was \$192,535, an increase of \$11,989, or 6.6 percent, over the same period of 2016. The increase was primarily the result of a \$1.26 billion increase in combined district average earning assets. The increase in earning assets was due to increases in association average loan volume, the bank's capital markets loan portfolio and the bank's investment portfolio. The net interest rate spread of 255 basis points increased slightly compared to the same period of 2016, with a 22 basis point increase in the yield of average interest earning assets offset by a 21-basis-point increase in the cost in average interest-bearing liabilities. The district associations had an increase in average loan volume of \$1.09 billion compared to the same period of 2016, due mainly to improved general economic conditions. The bank recognized \$760 in concession expenses on \$370,224 of debt called in the three months ended June 30, 2017, compared to \$4.1 million concession expense on \$2.79 billion of debt called in the three months ended June 30, 2016, which impacted interest expense.

Net interest income for the six months ended June 30, 2017, was \$379,478, an increase of \$22,836, or 6.4 percent, over the same period of 2016. The increase was primarily the result of a \$1.52 billion increase in combined district average earning assets. There was no change in the net interest rate spread of 255 basis points for the six months ended June 30, 2017. The increase in earning assets was due to increases in association average loan volume, the bank's capital markets loan portfolio and the bank's investment portfolio. The district associations had an increase in average loan volume of \$1.01 billion compared to the same period of 2016, due mainly to improved general economic conditions. Interest expense for the six months ended June 30, 2017, reflected a \$5.5 million decrease in concession expenses recognized on callable debt as a result of a \$3.51 billion decrease in debt called in the six months ended June 30, 2017, compared to the same period in 2016. The bank recognized \$788 in concession expenses on \$490,274 of debt called in the six months ended June 30, 2017, as compared to \$6.3 million on \$3.99 billion of debt called in the six months ended June 30, 2016.

Provision for Credit Losses

The district's provision for credit losses on loans, standby letters of credit and unfunded commitments for the three months ended June 30, 2017, totaled \$16,060, an increase of \$14,881 from the \$1,179 provision for the same period of 2016.

The provision for losses on loans, standby letters of credit and unfunded commitments for the six months ended June 30, 2017, was \$16,081, an increase of \$9,251 from the \$6,830 provision for the same period of 2016.

Included in the second quarter of 2017, a \$14.0 million provision for loan losses was recorded by one Association, with assets totaling \$1.7 billion, related to its investigation of accounting irregularities within the Association's loan portfolio. (See Note 1 to the accompanying combined financial statements for additional information.)

Noninterest Income

Noninterest income for the three months ended June 30, 2017, was \$11,149, a decrease of \$4,052, or 26.7 percent, from the same period of 2016. The decrease was due primarily to a \$1,891 decrease in patronage income and a \$3,096 decrease on a nonrecurring event associated with a gain of a sale of a loan in 2016 for the bank.

Noninterest income for the six months ended June 30, 2017, was \$26,037, a decrease of \$2,703, or 9.4 percent, from the same period of 2016. The decrease primarily related to a \$2,525 decrease in patronage income for the bank.

Noninterest Expense

Noninterest expense for the three months ended June 30, 2017, was \$88,162, an increase of \$5,225, or 6.3 percent, over the same period of 2016. The increase is primarily due to a \$3,138 increase in salaries and benefits due to an increase in compensation and pension and retirement benefits, and a \$2,622 increase in other operating expenses primarily due to an increase in professional and contract services, offset with a \$764 decrease in net gains on other property owned (OPO).

Noninterest expense for the six months ended June 30, 2017, was \$178,487, an increase of \$10,198, or 6.1 percent, over the same period of 2016. The increase is primarily attributable to a \$5,703 increase in salaries and benefits due to an increase in compensation and pension and retirement benefits, a \$4,529 increase in other operating expenses primarily due to an increase in professional and contract services, and a \$797 increase in occupancy and equipment expenses, offset with an \$803 decrease in net gains on OPO.

Key results of operations comparisons:

	Annualized for the Six Months Ended June 30, 2017	Annualized for the Six Months Ended June 30, 2016
Return on average assets	1.49%	1.56%
Return on average members' equity	10.03%	10.45%
Net interest income as a percentage of average earning assets	2.75%	2.73%
(Recoveries), net of charge-offs, to average loans	< (0.01)%	< (0.01)%
Operating expenses as a percentage of net interest income and noninterest income	44.16%	43.61%
Operating expenses as a percentage of average earning assets	1.30%	1.29%

Other Comprehensive Income

Other comprehensive income consists of certain gains, losses or costs for which values are included in assets or liabilities on the balance sheets, but which have not yet been recognized in earnings. In the balance sheets, they are included in accumulated other comprehensive (loss) income in the shareholders' equity section. For the district, these elements include unrealized gains or losses on the bank's available-for-sale investment portfolio, amortization of certain pension and postretirement benefit elements and changes in the value of cash flow derivative instruments.

The table below summarizes changes in elements included in other comprehensive income:

	Six Months Ended June 30,	
	2017	2016
Change in unrealized gains on available-for-sale securities		
Net increase in unrealized gains on investment securities	\$ 6,224	\$ 44,175
Net change in unrealized gains on securities	6,224	44,175
 Change in pension and postretirement benefit plans		
Amortization of prior service credits	(440)	(464)
Amortization of net losses	8,949	8,821
Net change in pension and postretirement benefit plans	8,509	8,357
 Change in cash flow derivative instruments		
Unrealized (loss) on cash flow derivative instruments	(2,056)	(4,668)
Reclassification of loss recognized in interest expense	710	758
Net change in cash flow derivative instruments	(1,346)	(3,910)
Other comprehensive income	\$ 13,387	\$ 48,622

FINANCIAL CONDITION

Loan Portfolio

Gross loan volume at June 30, 2017, was \$23.07 billion, an increase of \$642.1 million, or 2.9 percent, from \$22.43 billion at December 31, 2016. The increase in the loan portfolio during the first six months of 2017 was due to a \$600.9 million increase in the associations' loan portfolios and a \$45.0 million increase in the bank's capital market portfolio.

The bank's capital markets loan portfolio predominantly includes participations, syndications and purchased whole loans, along with other financing structures within our lending authorities. The bank also refers to the capital markets portfolio as participations purchased. In addition to purchasing loans from our district associations, which may exceed their hold limits, the bank seeks the purchase of participations and syndications originated outside of the district's territory by other System institutions, commercial banks and other lenders. These loans may be held as earning assets of the bank or sub-participated to the associations or to other System entities.

Loans classified under the Farm Credit Administration's (FCA's) Uniform Loan Classification System as "acceptable" or "special mention" as a percentage of total loans and accrued interest receivable were 98.4 percent at June 30, 2017, and 98.5 percent at December 31, 2016. Nonaccrual loans for the district were 0.6 percent of total loans at June 30, 2017, and December 31, 2016.

Total district high-risk asset volume decreased \$10.2 million, or 5.0 percent, to \$193.6 million at June 30, 2017.

Comparative balances of high-risk assets follow (in millions):

	June 30, 2017	<u>Increase (Decrease)</u>		<u>December 31, 2016</u>
		<u>\$</u>	<u>%</u>	
Nonaccrual loans	\$ 134.5	\$ (11.2)	(7.7) %	\$ 145.7
Accruing formally restructured loans	36.4	4.1	12.7	32.3
Loans 90 days past due and still accruing interest	6.3	(0.1)	(1.6)	6.4
Total impaired loans	177.2	(7.2)	(3.9)	184.4
Other property owned	16.4	(3.0)	(15.5)	19.4
Total high-risk assets	\$ 193.6	\$ (10.2)	(5.0) %	\$ 203.8

The \$11.2 million decrease in nonaccrual loans from December 31, 2016, to June 30, 2017, is primarily the result of repayments of \$46.7 million offset by \$35.5 million in transfers to nonaccrual status. The decrease in other property owned (OPO) was primarily due to dispositions of \$7.3 million at district associations offset by \$4.0 million in additions to OPO at district associations. The increase in accrual TDRs is mainly due to the addition of four loans designated as TDRs due to an extension of terms.

At June 30, 2017, \$67.1 million, or 50.0 percent, of the district's nonaccrual loans were considered current as to principal and interest. Continued satisfactory payment performance on these loans may indicate potential for a return to accrual status. At June 30, 2017, the district had \$5.6 million in nonaccrual loans on which interest income is recognized upon cash receipts, compared to \$7.9 million at December 31, 2016. Impaired loans, consisting of nonaccrual loans, accruing formally restructured loans and loans past due 90 days or more and still accruing interest, constituted 0.8 percent of total loans at June 30, 2017, and December 31, 2016.

The allowance for loan losses at June 30, 2017, totaled \$98,180 and constituted 0.4 percent of total loans and was an increase of \$16,443, or 20.1 percent, from the allowance for loan losses at December 31, 2016. The increase includes a \$16.1 million provision and \$2.4 million in recoveries, offset by \$1.9 million in charge-offs.

Additional information about the allowance for loan losses is included in Note 3, "Loans and Reserves for Credit Losses." The allowance for loan losses as a percentage of impaired loans was 55.4 percent as of June 30, 2017, as compared to 40.1 percent as of December 31, 2016. The nature of the security supporting many of the impaired loans (primarily first lien real estate) is considered in the determination of necessary allowances for loan losses. The district also had reserves for credit losses on letters of credit and unfunded commitments totaling \$5.8 million at June 30, 2017.

Liquidity and Funding Sources

Cash and available-for-sale investment securities totaled \$5.31 billion, or 18.4 percent, of total assets at June 30, 2017, compared to \$5.09 billion, or 18.2 percent, at December 31, 2016, an increase of \$225.4 million, or 4.4 percent. At June 30, 2017, the district's cash balance was \$228.5 million, an increase of \$21.3 million from the balance at December 31, 2016. Cash held at the Federal Reserve Bank at June 30, 2017, totaled \$208.5 million, compared to \$158.6 million at December 31, 2016. The bank has diversified its liquidity positions, with the purchase of U.S. Treasury securities in the second quarter of 2016. The bank maintains levels of cash and other highly liquid assets to meet loan demand, maturing debt and other liquidity needs.

At June 30, 2017, the bank had 208 days of liquidity to cover maturing debt obligations, as compared to 199 days at December 31, 2016. Interest-bearing liabilities, consisting of bonds and notes, increased by \$855.4 million, or 3.7 percent, from December 31, 2016, to June 30, 2017.

Investments

The district's investments at June 30, 2017, included the bank's available-for-sale portfolio with a fair value of \$4.9 billion and the district associations' held-to-maturity portfolio recorded at an amortized cost of \$20.4 million. The available-for-sale investments included a liquidity portfolio and a portfolio of other investments. The bank's available-for-sale liquidity portfolio consisted primarily of federal agency-guaranteed collateralized mortgage-backed securities (MBS), corporate debt, agency-guaranteed debt, U.S. Treasury securities and asset-backed securities (ABS). The majority of the liquidity portfolio's MBS includes Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA) and Federal Home Loan Mortgage Corporation (FHLMC) securities. The available-for-sale portfolio of other investments consisted of Federal Agricultural Mortgage Corporation (Farmer Mac) guaranteed agricultural mortgage-backed securities (AMBS) held by the bank that had a fair value of \$47.7 million. The district associations' held-to-maturity portfolio consisted of Farmer Mac AMBS held by district associations which had an amortized cost and fair value of \$20.4 million.

The Farmer Mac AMBS are backed by loans originated by the associations and previously held by the associations under Farmer Mac's long-term standby commitment to purchase agreements. Farmer Mac is a government-sponsored enterprise and is examined and regulated by FCA. It provides a secondary market for agricultural and rural home mortgage loans that meet certain underwriting standards. Farmer Mac is authorized to provide loan guarantees and to be a direct pooler of agricultural mortgage loans. Farmer Mac is owned by both System and non-System investors, and its board of directors has both System and non-System representation. Farmer Mac is not liable for any debt or obligation of any System institution, and no System institution other than Farmer Mac is liable for any debt or obligation of Farmer Mac.

The following table summarizes the bank's available-for-sale liquidity portfolio holdings:

	<u>June 30, 2017</u>		<u>December 31, 2016</u>	
	<u>Amortized Cost</u>	<u>Fair Value</u>	<u>Amortized Cost</u>	<u>Fair Value</u>
Agency-guaranteed debt	\$ 211,880	\$ 209,240	\$ 225,457	\$ 222,374
Corporate debt	244,943	245,469	202,365	202,403
Federal agency collateralized mortgage-backed securities				
GNMA	1,827,116	1,811,892	1,697,627	1,682,999
FNMA and FHLMC	2,325,036	2,312,770	2,308,775	2,290,579
U.S. Treasury securities	249,680	248,772	249,502	249,006
Asset-backed securities	107,150	107,187	130,703	130,679
Total liquidity investments	<u>\$ 4,965,805</u>	<u>\$ 4,935,330</u>	<u>\$ 4,814,429</u>	<u>\$ 4,778,040</u>

The bank's available-for-sale other investments portfolio consisted of Farmer Mac AMBS securities as follows:

	June 30, 2017		December 31, 2016	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Agricultural mortgage-backed securities	\$ 49,490	\$ 47,661	\$ 55,475	\$ 53,335

FCA regulations define eligible investments by specifying credit rating criteria, final maturity limit, percentage of investment portfolio limit and certain other requirements for each investment type. At the time the investments are purchased, they must be highly rated by at least one Nationally Recognized Statistical Rating Organization (NRSRO), such as Moody's Investors Service, Standard & Poor's or Fitch Ratings. U.S. Treasury securities, U.S. agency securities and other obligations fully insured or guaranteed by the U.S., its agencies, instrumentalities and corporations are considered eligible investments under the FCA's regulations, even if downgraded. If an investment no longer meets the credit rating criteria, the investment becomes ineligible; however, FCA regulations do not require disposition of any of these securities.

At June 30, 2017, the bank did not hold any investments that were ineligible for liquidity purposes by FCA regulations due to credit ratings that were below AAA rating by all NRSROs.

Subordinated Debt

In September 2008, the bank issued \$50.0 million of 8.406 percent unsecured subordinated notes due in 2018, generating proceeds of \$49.4 million. The proceeds were used to increase regulatory permanent capital and total surplus pursuant to FCA regulations and for general corporate purposes. This debt was unsecured and subordinate to all other categories of creditors, including general creditors, and senior to all classes of shareholders.

On March 10, 2016, the FCA approved a final rule to modify the regulatory capital requirements for System banks and associations, effective January 1, 2017. The final rule to modify regulatory capital requirements changes the favorable capital treatment of the subordinated debt, and, therefore, qualifies as a regulatory event. On March 30, 2016, the bank's board approved a resolution authorizing the redemption of all outstanding subordinated debt at par. The redemption occurred on June 6, 2016.

Capital Resources

The district's combined capital at June 30, 2017, totaled \$4.32 billion consisting of \$600,000 of Class B noncumulative subordinated perpetual preferred stock related to the bank and \$20,000 of fixed-to-floating rate perpetual cumulative preferred stock related to a district association, \$65,350 of capital stock and participation certificates, \$3.55 billion in retained earnings and \$224,625 in additional paid-in capital, offset by \$144,595 of accumulated other comprehensive loss. The district's capital reflected an increase of \$211,202 or 5.2 percent, from December 31, 2016, to June 30, 2017, due to net income of \$211,111, preferred stock issuance of \$20,000 and other comprehensive income changes of \$13,387.

During the first quarter of 2017 a district association issued \$20 million shares of fixed-to-floating rate perpetual cumulative preferred stock with a par value of \$1.00 per share. The preferred stock will have a fixed rate dividend of 5 percent for 10 years, payable semi-annually. After 10 years, the dividend rate becomes a floating rate of 5 percent above 6-month LIBOR. On or after five years, the association may, at its option, redeem all or part of the preferred stock. The district association recognized \$136 in issuance costs as a reduction of retained earnings during the second quarter of 2017.

Farm Credit Administration regulations require the bank and associations to maintain minimums for various regulatory capital ratios. New regulations became effective January 1, 2017, which replaced the previously required core surplus and total surplus ratios with common equity tier 1, tier 1 capital, and total capital risk-based capital ratios. The new regulations also added tier 1 leverage and unallocated retained earnings and equivalents (UREE) ratios. The permanent capital ratio continues to remain in effect, with some modifications to align with the new regulations. As of June 30, 2017, the bank and all district associations exceeded all regulatory capital requirements.

Key financial condition comparisons:

	June 30, 2017	December 31, 2016
Members' equity to assets	14.96%	14.66%
Total liabilities to members' equity	5.69:1	5.78:1
Allowance for loan losses to total loans	0.43%	0.36%

OTHER

CONDITIONS IN THE DISTRICT

During the second quarter, above-average rainfall across the majority of Louisiana, Mississippi and Alabama alleviated the relatively dry conditions that had prevailed in the prior quarter. Although the precipitation was welcome for much of the region, it became excessive in portions of Mississippi and Alabama, where total rainfall in June was more than triple the monthly average. Isolated pockets of mild drought have crept into the Texas panhandle, one of the district's key agricultural production regions. At this time, however, soil moisture conditions remain adequate in the area and throughout the district as a whole.

Field crops are progressing well across the district, and development progress for major crops is comparable to or ahead of the five-year average. Texas cotton farmers, who increased planted acreage by nearly 20 percent relative to the previous year, have benefited from favorable early-season growing conditions for the crop. Cotton is likely to be an integral component of the upcoming farm bill debate, as industry stakeholders work to improve the safety net available to cotton growers across the nation. The condition of the district's corn and soybean crops is also better than the five-year average. Grain farmers and livestock producers are closely watching the futures markets, where the volatility of corn and soybean prices increased substantially in late June and early July due to fluctuating weather conditions in key growing areas. For the remainder of the growing season, the primary focus will be on the weather and its potential impact on abandonment rates and yields. Retail prices for major crop nutrients have declined year-over-year, allowing farmers to maintain profitability despite the potential for lower prices. In addition, farmers in the district continue to utilize risk management tools, such as Federally-sponsored crop insurance programs and forward, futures and options contracts, to mitigate risk and enhance margins.

This year, cattle feedlots have benefited from lower feed costs, large year-over-year drops in feeder cattle prices and relatively strong prices for slaughter cattle. As cattle feedlot profitability has improved, demand for feeder steers has risen, thereby enhancing cash flow for cattle ranchers in the district. Prices are, however, expected to decline somewhat in the second half of the year, potentially reducing profitability for cattle feedlots and ranchers. U.S. beef production is projected to rise in 2017 and 2018, as the industry continues to expand at a meaningful pace for the first time in more than a decade. Increasing levels of beef exports have offset production gains, minimizing the impact of rising production on domestic beef prices. Poultry producers generated historically high profit margins throughout much of the second quarter, but margins in the industry may fall to more normalized levels in the near-term, as potential increases in feed costs and lower wholesale prices would reduce earnings. Milk prices were driven lower during the quarter by continued growth in milk production and building stocks of processed dairy products.

Through the first five months of 2017, Texas non-farm employment has grown at an annualized rate of 2.5 percent, significantly above the 1.3 percent rate observed in the nation. Job gains in the state have been driven by growth in the manufacturing and energy sectors, which have benefited from stable oil prices and a decline in the value of the U.S. dollar. Employment conditions throughout the district remain positive.

The district portfolio continues to be supported by strong credit quality, high levels of capital, low advance rates and diversification.

RATING AGENCY ACTIONS

Fitch Ratings Actions

On April 12, 2017, Fitch Ratings affirmed the bank's long-term and short-term issuer default ratings (IDRs) at "AA-" and "F1+," respectively, with a stable outlook. Fitch also affirmed the bank's noncumulative perpetual preferred stock rating at "BBB" and its support floor at "AA-." Fitch affirmed the Farm Credit System's long-term and short-term IDRs at "AAA" and "F1+," respectively, with a stable outlook, and its support floor at "AAA." As a government-sponsored entity, the System benefits from implicit government support. The ratings and rating outlook are directly linked to the U.S. sovereign rating. The affirmation of the System banks' IDRs reflect their prudent, conservative credit culture, their unique funding advantage and their structural second-loss position on the majority of their loan portfolio.

Moody's Investors Service Rating Actions

On March 30, 2017, Moody's Investors Service affirmed the bank's issuer rating at "Aa3" and its noncumulative preferred stock rating at "Baa1 (hyb)," with a stable outlook. The Aa3 issuer rating reflects the bank's "a1" baseline credit assessment (BCA), very high cooperative support from the other Federal Farm Credit banks and moderate support from the U.S. Government, which has an "Aaa," stable outlook. The bank's preferred stock rating incorporated the bank's BCA, very high cooperative support from the other Federal Farm Credit banks and notching reflecting the debt's relative positions in the bank's capital structure. The bank's BCA incorporates its solid capital levels, adequate risk-adjusted profitability and liquidity as well as the benefits associated with its lending to related associations and their strong capital levels. The "a1" BCA is one of Moody's highest assessments of any financial institution, both domestically and globally.

REGULATORY MATTERS

At June 30, 2017, there were no district associations under written agreements with the Farm Credit Administration.

On July 28, 2016, the Farm Credit Administration published a final regulation to modify the regulatory capital requirements for System banks and associations. The stated objectives of the proposed rule were as follows:

- To modernize capital requirements while ensuring that the institutions continue to hold sufficient regulatory capital to fulfill their mission as a government-sponsored enterprise,
- To ensure that the System's capital requirements are comparable to the Basel III framework and the standardized approach that the federal banking regulatory agencies have adopted, but also to ensure that the rules recognize the cooperative structure and the organization of the System,
- To make System regulatory capital requirements more transparent and
- To meet the requirements of section 939A of the Dodd-Frank Act.

The final rule replaced existing core surplus and total surplus requirements with common equity tier 1, tier 1 and total capital risk-based capital ratio requirements. The final rule also replaced the existing net collateral ratio with a tier 1 leverage ratio and is applicable to all banks and associations. The permanent capital ratio will continue to remain in effect with the final rule.

The new capital requirements became effective January 1, 2017, with a three-year phase-in of the capital conservation buffer applied to the risk-adjusted capital ratios. The bank and its affiliated associations are in compliance with the required minimum capital standards and met the conservation buffers as of June 30, 2017.

On June 12, 2014, the Farm Credit Administration approved a proposed rule to revise the requirements governing the eligibility of investments for System banks and associations. The stated objectives of the proposed rule are as follows:

- To strengthen the safety and soundness of System banks and associations,
- To ensure that System banks hold sufficient liquidity to continue operations and pay maturing obligations in the event of market disruption,
- To enhance the ability of the System banks to supply credit to agricultural and aquatic producers,
- To comply with the requirements of section 939A of the Dodd-Frank Act,
- To modernize the investment eligibility criteria for System banks, and
- To revise the investment regulation for System associations to improve their investment management practices so they are more resilient to risk.

The public comment period ended on October 23, 2014. FCA anticipates release of a final rule in 2017.

The undersigned certify that we have reviewed the June 30, 2017, quarterly report of the Farm Credit Bank of Texas and district associations, that the report has been prepared in accordance with all applicable statutory or regulatory requirements and that the information included herein is true, accurate, and complete to the best of our knowledge and belief.

Controls and Procedures

The Farm Credit Bank of Texas (bank) maintains a system of disclosure controls and procedures. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information disclosed by us in our quarterly and annual reports is accumulated and communicated to our management, including our chief executive officer and our chief financial officer, as appropriate, to allow timely decisions to be made regarding disclosure. With management's input, the chief executive officer and chief financial officer evaluated our disclosure controls and procedures as of the end of and for the period covered by this quarterly report, and have concluded that our disclosure controls and procedures are effective as of that date. This evaluation relies upon the evaluations made by the individual associations and the related certifications they provide to the bank.

The bank also maintains a system of internal controls. The "internal controls" as defined by the American Institute of Certified Public Accountants' Codification of Statement on Auditing Standards, AU Section 319, means a process — effected by the board of directors, management and other personnel — designed to provide reasonable assurance regarding the achievement of objectives in the reliability of our financial reporting, the effectiveness and efficiency of operations, and of compliance with applicable laws and regulations. We continually assess the adequacy of our internal control over financial reporting and enhance our controls in response to internal control assessments and internal and external audit and regulatory recommendations. There have been no significant changes in our internal controls or in other factors that could significantly affect such controls subsequent to the date we carried out our evaluations.

Notes to Combined Financial Statements

Unaudited (dollar amounts in thousands unless otherwise noted)

NOTE 1 — ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The accompanying combined financial statements (financial statements) include the accounts of the Farm Credit Bank of Texas (bank) and the accounts of its affiliated Agricultural Credit Associations (ACAs) and Federal Land Credit Association (FLCA) in the Farm Credit System (System). The ACAs and FLCA are collectively referred to as associations, and the bank and its affiliated associations are collectively referred to as the district. The financial statements also reflect the investments in and allocated earnings of the service organizations in which the bank has a partial ownership interest. All significant transactions and balances between the bank and the associations have been eliminated in combination.

The district revised its cash flow statement for the six months ended June 30, 2016 between the net cash provided by operating activities, net cash provided by investing activities, and net cash provided by financing activities to correctly present the accretion on net premium on loans, the issuance of new debt concession costs, and the amortization and accretion on debt instruments. The revision resulted in an increase to net cash provided by operating activities of \$4.6 million, an increase in net cash provided by investing activities of \$1.2 million, and a decrease in net cash provided by financing activities of \$5.8 million for the six months ended June 30, 2016.

During the second quarter of 2017, one Association, which had assets totaling \$1.7 billion as of June 30, 2017, noted accounting irregularities on several loans within the Association's loan portfolio. An in-depth investigation is currently being conducted by the Association regarding the accounting irregularities. The District's combined financial statements for the quarter ended June 30, 2017 recorded a provision for loan losses of \$14.0 million and represents an estimate based on information known to date; however, upon completion of the investigation, the losses could increase or decrease.

In the opinion of management, the accompanying unaudited financial statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations of the district, and conform to generally accepted accounting principles. The preparation of these financial statements requires the use of management's estimates. The results of operations for any interim period are not necessarily indicative of the results to be expected for the entire year.

In March 2017, the Financial Accounting Standards Board (FASB) issued guidance entitled "Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Cost." The guidance requires that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. Other components are required to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations, if one is presented. This guidance becomes effective for interim and annual periods beginning after December 15, 2017. The adoption of this guidance is not expected to impact the district's financial condition but could change the classification of certain items in the results of operations.

In August 2016, the FASB issued guidance entitled "Classification of Certain Cash Receipts and Cash Payments." The guidance addresses specific cash flow issues with the objective of reducing the diversity in the classification of these cash flows. Included in the cash flow issues are debt prepayment or debt extinguishment costs and settlement of zero-coupon debt instruments or other debt instruments with coupon interest rates that are insignificant in relation to the effective interest rate of the borrowing. This guidance becomes effective for interim and annual periods beginning after December 15, 2017. The

adoption of this guidance is not expected to impact the district's financial condition or its results of operations but could change the classification of certain items in the statement of cash flows.

In June 2016, the FASB issued guidance entitled "Measurement of Credit Losses on Financial Instruments." The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses. For public business entities that are not U.S. Securities and Exchange Commission filers this guidance becomes effective for interim and annual periods beginning after December 15, 2020, with early application permitted. The bank and associations will evaluate the impact of adoption on their financial condition and results of operations.

In February 2016, the FASB issued guidance entitled "Leases." The guidance requires the recognition by lessees of lease assets and lease liabilities on the balance sheet for the rights and obligations created by those leases. Leases with lease terms of more than 12 months are impacted by this guidance. This guidance becomes effective for interim and annual periods beginning after December 15, 2018, with early application permitted. The bank and associations are currently evaluating the impact of adoption on their financial condition and results of operations.

In January 2016, the FASB issued guidance entitled "Recognition and Measurement of Financial Assets and Liabilities." The guidance affects, among other things, the presentation and disclosure requirements for financial instruments. For public entities, the guidance eliminates the requirement to disclose the methods and significant assumptions used to estimate the fair value of financial instruments carried at amortized cost. This guidance becomes effective for interim and annual periods beginning after December 15, 2017. The adoption of this guidance is not expected to impact the bank or association's financial condition or their results of operations.

In May 2014, the FASB issued guidance entitled, "Revenue from Contracts with Customers." The guidance governs revenue recognition from contracts with customers and requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Financial instruments and other contractual rights within the scope of other guidance issued by the FASB are excluded from the scope of this new revenue recognition guidance. In this regard, a majority of our contracts would be excluded from the scope of this new guidance. In August 2015, the FASB issued an update that defers this guidance by one year, which results in the new revenue standard becoming effective for interim and annual reporting periods beginning after December 15, 2017. The bank and associations are in the process of reviewing contracts to determine the effect, if any, on their financial condition or results of operations.

NOTE 2 — INVESTMENTS

Investments Available-for-Sale

The bank's available-for-sale investments include a liquidity portfolio and a portfolio of other investments. The majority of the liquidity portfolio's mortgage-backed securities were federal agency-guaranteed collateralized mortgage-backed securities, including Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA) and Federal Home Loan Mortgage Corporation (FHLMC) securities. The other investments portfolio consists of Federal Agricultural Mortgage Corporation (Farmer Mac) guaranteed agricultural mortgage-backed securities (AMBS). A summary of the amortized cost and fair value of investment securities available-for-sale, at June 30, 2017, and December 31, 2016, is as follows:

Investments in the bank's available-for-sale liquidity portfolio at June 30, 2017:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Weighted Average Yield
Agency-guaranteed debt	\$ 211,880	\$ 194	\$ (2,834)	\$ 209,240	1.87 %
Corporate debt	244,943	615	(89)	245,469	1.61
Federal agency-guaranteed collateralized mortgage-backed securities:					
GNMA	1,827,116	923	(16,147)	1,811,892	1.82
FNMA and FHLMC	2,325,036	3,578	(15,844)	2,312,770	1.73
U.S. Treasury securities	249,680	-	(908)	248,772	0.90
Asset-backed securities	107,150	61	(24)	107,187	1.49
Total available-for-sale liquidity investments	\$ 4,965,805	\$ 5,371	\$ (35,846)	\$ 4,935,330	1.71 %

Investments in the bank's available-for-sale other investments portfolio at June 30, 2017:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Weighted Average Yield
Agricultural mortgage-backed securities	\$ 49,490	\$ -	\$ (1,829)	\$ 47,661	4.35 %

Investments in the bank's available-for-sale liquidity portfolio at December 31, 2016:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Weighted Average Yield
Agency-guaranteed debt	\$ 225,457	\$ 160	\$ (3,243)	\$ 222,374	1.80 %
Corporate debt	202,365	461	(423)	202,403	1.41
Federal agency collateralized mortgage-backed securities:					
GNMA	1,697,627	1,452	(16,080)	1,682,999	1.61
FNMA and FHLMC	2,308,775	2,026	(20,222)	2,290,579	1.47
U.S. Treasury securities	249,502	-	(496)	249,006	0.90
Asset-backed securities	130,703	19	(43)	130,679	1.10
Total available-for-sale liquidity investments	\$ 4,814,429	\$ 4,118	\$ (40,507)	\$ 4,778,040	1.49 %

Investments in the bank's available-for-sale other investments portfolio at December 31, 2016:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Weighted Average Yield
Agricultural mortgage-backed securities	\$ 55,475	\$ -	\$ (2,140)	\$ 53,335	4.23 %

The following tables summarize the contractual maturity, fair value, amortized cost and weighted average yield of available-for-sale investments at June 30, 2017:

Investments in the bank's available-for-sale liquidity portfolio:

	Due in one year or less	Due after one year through five years	Due after five years through 10 years	Due after 10 years	Total
Agency-guaranteed debt	\$ -	\$ -	\$ 209,240	\$ -	\$ 209,240
Corporate debt	112,615	132,854	-	-	245,469
Federal agency collateralized mortgage-backed securities					
GNMA	-	194	967	1,810,731	1,811,892
FNMA and FHLMC	-	16,390	356,689	1,939,691	2,312,770
U.S. Treasury securities	199,125	49,647	-	-	248,772
Asset-backed securities	-	104,513	-	2,674	107,187
Total fair value	\$ 311,740	\$ 303,598	\$ 566,896	\$ 3,753,096	\$ 4,935,330
Total amortized cost	\$ 312,234	\$ 303,447	\$ 570,995	\$ 3,779,129	\$ 4,965,805
Weighted average yield	1.16%	1.45%	1.77%	1.77%	1.71%

Investments in the bank's available-for-sale other investments portfolio:

	Due after one year through five years	Due after five years through 10 years	Total
Fair value of agricultural mortgage-backed securities	\$ 4,339	\$ 43,322	\$ 47,661
Total amortized cost	\$ 4,399	\$ 45,091	\$ 49,490
Weighted average yield	3.92%	4.39%	4.35%

Other-Than-Temporarily Impaired Investments Evaluation

The following table shows the bank's available-for-sale liquidity portfolio investments by gross unrealized losses and fair value, aggregated by investment category and length of time, for the securities that have been in a continuous unrealized loss position at June 30, 2017. The continuous loss position is based on the date the impairment was first identified:

	Less Than 12 Months		Greater Than 12 Months		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Agency-guaranteed debt	\$ 91,642	\$ (1,186)	\$ 83,870	\$ (1,648)	\$ 175,512	\$ (2,834)
Corporate debt	50,204	(25)	27,439	(64)	77,643	(89)
Federal agency collateralized mortgage-backed securities						
GNMA	1,145,451	(9,252)	515,912	(6,895)	1,661,363	(16,147)
FNMA and FHLMC	961,807	(11,614)	512,782	(4,230)	1,474,589	(15,844)
U.S. Treasury securities	248,772	(908)	-	-	248,772	(908)
Asset-backed securities	32,150	(23)	1,533	(1)	33,683	(24)
Total	\$ 2,530,026	\$ (23,008)	\$ 1,141,536	\$ (12,838)	\$ 3,671,562	\$ (35,846)

The district evaluates investment securities for other-than-temporary impairment (OTTI) on a quarterly basis. Impairment is considered to be other than temporary if an entity (i) intends to sell the security, (ii) is more likely than not to be required to sell the security before recovering its cost or (iii) does not expect to recover the security's entire amortized cost basis (even if the entity does not intend to sell).

In the event of an investment being designated OTTI, to measure the amount related to credit loss in the determination of OTTI, the bank utilizes a third-party vendor's services for cash flow modeling and projection of credit losses for specific non-agency residential mortgage-backed securities and subprime asset-backed securities. Significant inputs utilized in the methodology of the modeling include assumptions surrounding market data (interest rates and home prices) and the applicable securities' loan-level data. Loan-level data evaluated includes loan status, coupon and resets, FICO scores, loan-to-value, geography, property type, etc. Loan-level data is then combined with assumptions surrounding future behavior of home prices, prepayment rates, default rates and loss severity to arrive at cash flow projections for the underlying collateral. Default rate assumptions are generally estimated using historical loss and performance information to estimate future defaults. The present value of these cash flow projections is then evaluated against the specific security's structure and credit enhancement to determine if the bond will absorb losses. For the six months ended June 30, 2017, the district did not recognize any other-than-temporary impairment credit losses and no securities were identified as OTTI at June 30, 2017 and December 31, 2016.

Held-to-Maturity Investments

The district's held-to-maturity investments consist of Farmer Mac guaranteed agricultural mortgage-backed securities and are held by district associations. A summary of the amortized cost and fair value of held-to-maturity investment securities at June 30, 2017, is as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Weighted Average Yield
Agricultural mortgage-backed securities	\$ 20,350	\$ 157	\$ (103)	\$ 20,404	4.85%

The following table summarizes the contractual maturity, fair value, amortized cost and weighted average yield of the district's held-to-maturity investments at June 30, 2017:

	Due after one year through five years	Due after five years through 10 years	Total
Fair value of agricultural mortgage-backed securities	\$ 13,671	\$ 6,733	\$ 20,404
Total amortized cost	\$ 13,514	\$ 6,836	\$ 20,350
Weighted average yield	5.18%	4.20%	4.85%

NOTE 3 — LOANS AND RESERVES FOR CREDIT LOSSES

A summary of the district's loans are as follows:

	June 30, 2017	December 31, 2016
Real estate mortgage	\$ 13,951,298	\$ 13,462,730
Production and intermediate term Agribusiness	2,823,192	2,736,456
Loans to cooperatives	402,805	390,798
Processing and marketing	3,286,012	3,146,124
Farm-related business	215,078	258,477
Communication	506,964	465,257
Energy (rural utilities)	1,341,753	1,433,870
Water and waste disposal	152,851	141,587
Rural residential real estate	224,691	216,398
Lease receivables	7,378	6,169
Loans to other financing institutions	38,774	42,078
Mission-related	117,396	126,173
	\$ 23,068,192	\$ 22,426,117

The bank's capital markets loan portfolio predominantly includes participations, syndications and purchased whole loans, along with other financing structures within our lending authorities. The bank also refers to the capital markets portfolio as participations purchased. In addition to purchasing loans from our district associations, which may exceed their hold limits, the bank seeks the purchase of participations and syndications originated outside of the district's territory by other System institutions, commercial banks and

other lenders. These loans may be held as earning assets of the bank or sub-participated to the associations or to other System entities. The bank and associations purchase or sell participation interests with other parties in order to diversify risk, manage loan volume and comply with Farm Credit Administration (FCA) regulations.

The following table presents information regarding the district's balances of participations purchased and sold, excluding syndications, at June 30, 2017:

	Other Farm Credit Institutions (Outside of the Texas District)		Non-Farm Credit Institutions		Total	
	Participations	Participations	Participations	Participations	Participations	Participations
	Purchased	Sold	Purchased	Sold	Purchased	Sold
Real estate mortgage	\$ 225,527	\$ 302,567	\$ 281,574	\$ 4,770	\$ 507,101	\$ 307,337

Loans to other financing institutions	-	8,814	-	-	-	8,814
Direct note receivable from district associations	-	3,850,000	-	-	-	3,850,000
Total	\$ 4,835,382	\$ 4,896,213	\$ 311,932	\$ 105,368	\$ 5,147,314	\$ 5,001,581

The bank and associations are authorized under the Farm Credit Act to accept “advance conditional payments” (ACPs) from borrowers. To the extent the borrower’s access to such ACPs is restricted and the legal right of setoff exists, the ACPs are netted against the borrower’s related loan balance. ACPs which are held by the district but cannot be used to reduce outstanding loan balances, except at the direction of the borrower, are classified as other liabilities in the combined balance sheets. ACPs are not insured, and interest is generally paid by the associations on such balances. At June 30, 2017, ACPs netted against borrowers’ related loan balances totaled \$189,455 and ACPs included in other liabilities totaled \$24,127, compared to \$177,675 and \$16,560, respectively, at December 31, 2016.

The bank has elected the fair value option for certain callable loans purchased on the secondary market at a significant premium. The fair value option provides an irrevocable option to elect fair value as an alternative measurement for selected financial assets. The fair value of loans held under the fair value option totaled \$10,216 at June 30, 2017. Fair value is used for both the initial and subsequent measurement of the designated instrument, with the changes in fair value recognized in net income. On these instruments, the related contractual interest income and premium amortization are recorded as Interest Income in the Statements of Comprehensive Income. The remaining changes in fair value on these instruments are recorded as net gains (losses) in Noninterest Income on the Statements of Comprehensive Income. The fair value of these instruments is included in Level 2 in the fair value hierarchy for assets recorded at fair value on a recurring basis.

The following is a summary of the transactions on loans for which the fair value option has been elected for the six months ended June 30, 2017:

Balance at January 1, 2017	\$ 16,311
Net loss on financial instruments	
under fair value option	(146)
Maturities	(5,665)
Premium amortization	(284)
Balance at June 30, 2017	<u>\$ 10,216</u>

Nonperforming assets (including related accrued interest) and related credit quality statistics are as follows:

	June 30, 2017	December 31, 2016
Nonaccrual loans:		
Real estate mortgage	\$ 87,744	\$ 91,651
Production and intermediate term	35,337	42,225
Agribusiness	3,975	4,283
Rural residential real estate	2,077	2,103
Lease receivables	86	91
Mission-related	5,258	5,355
Total nonaccrual loans	134,477	145,708
 Accruing restructured loans:

Total accruing restructured loans	36,354	32,348
 Accruing loans 90 days or more past due:		
Real estate mortgage	4,265	3,014
Production and intermediate term	457	3,416
Agribusiness generic	1,607	-
Total accruing loans 90 days or more past due	6,329	6,430
 Total nonperforming loans	 177,160	 184,486
Other property owned	16,447	19,354
Total nonperforming assets	\$ 193,607	\$ 203,840

One credit quality indicator utilized by the bank and associations is the FCA Uniform Loan Classification System that categorizes loans into five categories. The categories are defined as follows:

- Acceptable – assets are expected to be fully collectible and represent the highest quality;
- Other assets especially mentioned (OAEM) – assets are currently collectible but exhibit some potential weakness;
- Substandard – assets exhibit some serious weakness in repayment capacity, equity and/or collateral pledged on the loan;
- Doubtful – assets exhibit similar weaknesses to substandard assets; however, doubtful assets have additional weaknesses in existing factors, conditions and values that make collection in full highly questionable; and
- Loss – assets are considered uncollectible.

The following table shows loans and related accrued interest as a percentage of total loans and related accrued interest receivable by loan type as of:

	June 30, 2017	December 31, 2016
Real estate mortgage:		
Acceptable	96.7 %	97.2 %

At June 30, 2017, impaired loans of \$25.1 million had a related specific allowance of \$5.1 million, while the remaining \$150.6 million of impaired loans had no related specific allowance as a result of adequate collateralization.

The average recorded investment in impaired loans for the three months ended June 30, 2017, was \$176.4 million. The district recognized interest income of \$4.3 million on impaired loans during the three months ended June 30, 2017.

The average recorded investment in impaired loans for the six months ended June 30, 2017, was \$179.3 million. The district recognized interest income of \$6.1 million on impaired loans during the six months ended June 30, 2017.

A summary of changes in the allowance for loan losses and period-end recorded investment in loans is as follows:

*Includes reserve for losses on standby letters of credit that are recorded in other liabilities and an association prior year adjustment.

A restructuring of a debt constitutes a troubled debt restructuring (TDR) if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. TDRs are undertaken in order to improve the likelihood of recovery on the loan and may include, but are not limited to, forgiveness of principal or interest, interest rate reductions that are lower than the current market rate for new debt with similar risk, or significant term or payment extensions.

As of June 30, 2017, the total recorded investment of TDR loans was \$62,076, including \$12,861 classified as nonaccrual and \$49,215 classified as accrual, with specific allowance for loan losses of \$1,390. Additional commitments to lend to borrowers whose loan terms have been modified in TDRs were \$346 at June 30, 2017, and \$306 at December 31, 2016.

The following table summarizes TDR loan balances by loan type:

	Loans Modified as TDRs		TDRs in Nonaccrual Status	
	June 30, 2017	December 31, 2016	June 30, 2017	December 31, 2016
Real estate mortgage	\$ 31,804	\$ 31,846	\$ 5,630	\$ 7,277
Production and intermediate term	4,917	2,906	549	1,090
Agribusiness	1,115	1,373	1,115	1,373
Rural residential real estate	473	498	309	329
Mission-related	10,906	11,149	5,258	5,355
Total	<u>\$ 49,215</u>	<u>\$ 47,772</u>	<u>\$ 12,861</u>	<u>\$ 15,424</u>

The following tables present additional information regarding troubled debt restructurings, which includes both accrual and nonaccrual loans with troubled debt restructuring designation, that occurred during the three and six months ended June 30, 2017, and June 30, 2016. The premodification outstanding recorded investment represents the recorded investment of the loans as of the quarter end prior to the restructuring.

For the three months ended June 30, 2017:

	Premodification Outstanding Recorded Investment	Postmodification Outstanding Recorded Investment
Troubled debt restructurings:		
Real estate mortgage	\$ 1,404	\$ 1,380
Production and intermediate term	2,652	2,681
Total	<u>\$ 4,056</u>	<u>\$ 4,061</u>

For the three months ended June 30, 2016:

	Premodification Outstanding Recorded Investment	Postmodification Outstanding Recorded Investment
Troubled debt restructurings:		
Real estate mortgage	\$ 382	\$ 369
Rural residential real estate	141	140
Total	<u>\$ 523</u>	<u>\$ 509</u>

For the six months ended June 30, 2017:

	Premodification Outstanding Recorded Investment	Postmodification Outstanding Recorded Investment
Troubled debt restructurings:		
Real estate mortgage	\$ 2,823	\$ 2,762
Production and intermediate term	5,651	5,223
Total	\$ 8,474	\$ 7,985

For the six months ended June 30, 2016:

	Premodification Outstanding Recorded Investment	Postmodification Outstanding Recorded Investment
Troubled debt restructurings:		
Real estate mortgage	\$ 590	\$ 578
Production and intermediate term	479	478
Mission-related	2,066	1,947
Total	\$ 3,135	\$ 3,003

The predominant form of concession granted for troubled debt restructuring includes extension of the term and delayed payments. Other types of modifications include interest rate and principal reductions.

A payment default is defined as a payment that is 30 days past due after the date the loan was restructured. The following table presents information regarding troubled debt restructurings that occurred within the previous 12 months and for which there was a payment default during the period:

	Recorded Investment at June 30, 2017	Recorded Investment at June 30, 2016
Troubled debt restructurings that subsequently defaulted:		
Real estate mortgage	\$ -	\$ 211
Total	\$ -	\$ 211

NOTE 4 — COMMITMENTS AND CONTINGENCIES

The bank is primarily liable for its portion of Systemwide debt obligations. Additionally, the bank is jointly and severally liable for the consolidated Systemwide bonds and notes of the other System banks. Total consolidated bank and Systemwide obligations of the System at June 30, 2017, were approximately \$258.39 billion.

In the normal course of business, the district has various outstanding commitments and contingencies, including the possibility of actions against the district in which claims for monetary damages may be asserted. Management and legal counsel are not aware of any other pending lawsuits or actions. Upon the basis of current information, management and legal counsel are of the opinion that the ultimate liability, if any, resulting from lawsuits or other pending actions will not be material in relation to the financial position, results of operations or cash flows of the district.

NOTE 5 — FAIR VALUE MEASUREMENTS

Accounting guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability. See Note 2, “Summary of Significant Accounting Policies,” of the 2016 Annual Report for a more complete description.

Assets and liabilities recorded at fair value on a recurring basis at June 30, 2017, for each of the fair value hierarchy levels are summarized below:

	Fair Value Measurements at June 30, 2017			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Federal funds	\$ 80,739	\$ -	\$ 80,739	\$ -
Investments available for sale:				
Agency-guaranteed debt	209,240	-	209,240	-
Corporate debt	245,469	-	245,469	-
Mortgage-backed securities	4,124,662	-	4,083,862	40,800
U.S. Treasury securities	248,772	-	248,772	-
Asset-backed securities	107,187	-	107,187	-
Mission-related and other available-for-sale investments	47,661	-	-	47,661
Loans valued under the fair value option	10,216	-	10,216	-
Derivative assets	7,511	-	7,511	-
Assets held in nonqualified benefit trusts	7,385	7,385	-	-
Total assets	\$ 5,088,842	\$ 7,385	\$ 4,992,996	\$ 88,461
Liabilities:				
Derivative liabilities	\$ 429	\$ -	\$ 429	\$ -
Standby letters of credit	971	-	-	971
Total liabilities	\$ 1,400	\$ -	\$ 429	\$ 971

The following table represents a reconciliation of all assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the period from March 31, 2017, to June 30, 2017:

	Assets		Liabilities	
	Mortgage-Backed Securities	Agricultural Mortgage-Backed Securities	Standby Letters of Credit	Net
Balance at March 31, 2017	\$ -	\$ 49,950	\$ 621	\$ 49,329
Net gains included in other comprehensive income	(324)	308	-	(16)
Purchases, issuances and settlements	41,124	(2,597)	350	38,177
Balance at June 30, 2017	<u>\$ 40,800</u>	<u>\$ 47,661</u>	<u>\$ 971</u>	<u>\$ 87,490</u>

The following table represents a reconciliation of all assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the period from January 1, 2017, to June 30, 2017:

	Assets		Liabilities	
	Mortgage-Backed Securities	Agricultural Mortgage-Backed Securities	Standby Letters of Credit	Net
Balance at January 1, 2017	\$ -	\$ 53,335	\$ 711	\$ 52,624
Net gains included in other comprehensive income	(324)	310	-	(14)
Purchases, issuances and settlements	41,124	(5,984)	260	34,880
Balance at June 30, 2017	<u>\$ 40,800</u>	<u>\$ 47,661</u>	<u>\$ 971</u>	<u>\$ 87,490</u>

There were no transfers of assets or liabilities into or out of Level 1 from other levels during the six months ended June 30, 2017. Agricultural mortgage-backed securities (AMBS) are included in Level 3 due to limited activity or less transparency around inputs to their valuation. Mortgage-backed securities (or MSB) are included in Level 3 due to the fact that their valuation was based on Level 3 criteria (broker quotes). The liability for standby letters of credit is included in Level 3 due to a determination that their valuation, based on fees currently charged for similar agreements, may not closely correlate to a fair value for instruments that are not regularly traded in the secondary market.

Assets and liabilities measured at fair value on a nonrecurring basis at June 30, 2017, for each of the fair value hierarchy levels are summarized below:

	Fair Value Measurements			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Gains (Losses)
Assets:				
Loans	\$ 138,462	\$ -	\$ 138,462	\$ (1,931)
Other property owned	18,274	-	18,274	583
Total assets	<u>\$ 156,736</u>	<u>\$ -</u>	<u>\$ 156,736</u>	<u>\$ (1,348)</u>

Assets and liabilities recorded at fair value on a recurring basis at December 31, 2016, for each of the fair value hierarchy levels are summarized below:

	Fair Value Measurements			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Federal funds	\$ 22,901	\$ -	\$ 22,901	\$ -
Investments available for sale:				
Agency-guaranteed debt	222,374	-	222,374	-
Corporate debt	202,403	-	202,403	-
U.S. Treasury securities	249,006	-	249,006	-
Mortgage-backed securities	3,973,578	-	3,973,578	-
Asset-backed securities	130,679	-	130,679	-
Mission-related and other available-for-sale investments	53,335	-	-	53,335
Loans valued under the fair value option	16,311	-	16,311	-
Derivative assets	8,074	-	8,074	-
Assets held in nonqualified benefit trusts	7,003	7,003	-	-
Total assets	\$ 4,885,664	\$ 7,003	\$ 4,825,326	\$ 53,335
Liabilities:				
Standby letters of credit	\$ 711	\$ -	\$ -	\$ 711
Total liabilities	\$ 711	\$ -	\$ -	\$ 711

The following table represents a reconciliation of all assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the period from March 31, 2016, to June 30, 2016:

	<u>Assets</u>	<u>Liabilities</u>	<u>Net</u>
	Agricultural	Standby	
	Mortgage-	Letters of	
	Backed	Credit	
	Securities		
Balance at March 31, 2016	\$ 60,935	\$ 1,178	\$ 59,757
Net gains included in other comprehensive income	544	-	544
Purchases, issuances and settlements	(1,805)	(42)	(1,763)
Balance at June 30, 2016	\$ 59,674	\$ 1,136	\$ 58,538

The following table represents a reconciliation of all assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the period from January 1, 2016, to June 30, 2016:

	Assets			Liabilities	Net
	Mortgage-Backed Securities	Agricultural Mortgage-Backed Securities	Loan Held For Sale	Standby Letters of Credit	
Balance at January 1, 2016	\$ 50,250	\$ 65,650	\$ 4,850	\$ 967	119,783
Net gains included in other comprehensive income	-	66	-	-	66
Purchases, issuances and settlements	-	(6,042)	(4,850)	169	(11,061)
Transfers out of Level 3	(50,250)	-	-	-	(50,250)
Balance at June 30, 2016	\$ -	\$ 59,674	\$ -	\$ 1,136	\$ 58,538

There were no transfers of assets or liabilities into or out of Level 1 from other levels during the six months ended June 30, 2016. At December 31, 2015, Level 3 investments included one agency MBS and one loan held for sale due to the fact that their valuations were based on Level 3 criteria (broker quotes). In the six months ended June 30, 2016, the loan held for sale was disposed of and the agency MBS was transferred to Level 2 when it had a valuation based on Level 2 criteria (independent third party valuation services). AMBS are included in Level 3 due to limited activity or less transparency around inputs to their valuation. The liability for standby letters of credit is included in Level 3 due to a determination that their valuation, based on fees currently charged for similar agreements, may not closely correlate to a fair value for instruments that are not regularly traded in the secondary market.

Assets and liabilities measured at fair value on a nonrecurring basis at December 31, 2016, for each of the fair value hierarchy levels are summarized below:

	Fair Value Measurements				Total Gains (Losses)
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Assets:					
Loans	\$ 148,782	\$ -	\$ -	\$ 148,782	\$ (3,624)
Other property owned	21,504	-	-	21,504	(2,179)
Total assets	\$ 170,286	\$ -	\$ -	\$ 170,286	\$ (5,803)

Financial assets and financial liabilities measured at carrying amounts and not measured at fair value on the Balance Sheet for each of the fair value hierarchy values are summarized as follows:

June 30, 2017:

	Fair Value Measurements Using				Total Fair Value
	Total Carrying Amount	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Assets:					
Cash	\$ 228,496	\$228,496	\$ -	\$ -	\$ 228,496
Mission-related and other held- to-maturity investments	20,350	-	-	20,404	20,404
Net loans	22,984,017	-	-	22,815,050	22,815,050
Total assets	\$ 23,232,863	\$228,496	\$ -	\$ 22,835,454	\$23,063,950
Liabilities:					
Systemwide debt securities and other notes	\$ 24,096,067	\$ -	\$ -	\$ 24,123,844	\$24,123,844
	\$ 24,096,067	\$ -	\$ -	\$ 24,123,844	\$24,123,844

December 31, 2016:

	Fair Value Measurements Using				Total Fair Value
	Total Carrying Amount	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Assets:					
Cash	\$ 207,229	\$ 207,229	\$ -	\$ -	\$ 207,229

Total assets	\$ 22,412,209	\$ 207,229	\$ -	\$22,007,648	\$ 22,214,877
Liabilities:					
Systemwide debt securities and other notes	\$ 23,240,663	\$ -	\$ -	\$23,234,907	\$ 23,234,907
	\$ 23,240,663	\$ -	\$ -	\$23,234,907	\$ 23,234,907

Valuation Techniques

As more fully discussed in Note 1, “Organization and Significant Accounting Policies,” authoritative accounting guidance establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The following represent a brief summary of the valuation techniques used by the bank and associations for assets and liabilities:

Cash

For cash, the carrying amount is a reasonable estimate of fair value.

Investment Securities

Where quoted prices are available in an active market, available-for-sale securities would be classified as Level 1. If quoted prices are not available in an active market, the fair value of securities is estimated using pricing models that utilize observable inputs, quoted prices for similar securities received from pricing services or discounted cash flows. Generally, these securities would be classified as Level 2. Among other securities, this would include certain mortgage-backed securities and asset-backed securities. Where there is limited activity or less transparency around inputs to the valuation, the securities are classified as Level 3. At June 30, 2017, there was one agency MBS investment in Level 3. Level 3 assets at June 30, 2017, also included the bank’s AMBS portfolio, which is valued by the bank using a model that incorporates underlying rates and current yield curves.

As permitted under FCA regulations, the banks are authorized to hold eligible investments. The regulations define eligible investments by specifying credit rating criteria, final maturity limit and percentage of portfolio limit for each investment type. At the time of purchase, mortgage-backed and asset-backed securities must be triple-A rated by at least one Nationally Recognized Statistical Rating Organization. The triple-A rating requirement puts the banks in a position to hold the senior tranches of securitizations. The underlying loans for mortgage-backed securities are residential mortgages, while the underlying loans for asset-backed securities are home equity lines of credit, small business loans, equipment loans or student loans.

To estimate the fair value of the majority of the investments held, the bank obtains prices from third-party pricing services.

Assets Held in Nonqualified Benefits Trusts

Assets held in trust funds related to deferred compensation and supplemental retirement plans are classified within Level 1. The trust funds include investments that are actively traded and have quoted net asset values that are observable in the marketplace.

Derivatives

Exchange-traded derivatives valued using quoted prices would be classified within Level 1 of the valuation hierarchy. However, few classes of derivative contracts are listed on an exchange; thus, the majority of the derivative positions are valued using internally developed models that use as their basis readily observable market parameters and are classified within Level 2 of the valuation hierarchy. Such derivatives include interest rate caps and cash flow interest rate swaps.

The models used to determine the fair value of derivative assets and liabilities use an income approach based on observable market inputs, primarily the LIBOR swap curve and volatility assumptions about future interest rate movements.

Standby Letters of Credit

The fair value of letters of credit approximates the fees currently charged for similar agreements or the estimated cost to terminate or otherwise settle similar obligations.

Loans

Fair value is estimated by discounting the expected future cash flows using the banks' and/or the associations' current interest rates at which similar loans would be made to borrowers with similar credit risk. The discount rates are based on the banks' and/or the associations' current loan origination rates as well as management's estimates of credit risk. Management has no basis to determine whether the fair values presented would be indicative of the value negotiated in an actual sale and could be less.

For purposes of estimating fair value of accruing loans, the loan portfolio is segregated into pools of loans with homogeneous characteristics. Expected future cash flows, primarily based on contractual terms, and interest rates reflecting appropriate credit risk are separately determined for each individual pool.

The fair value of loans in nonaccrual status that are current as to principal and interest is estimated as described above, with appropriately higher interest rates which reflect the uncertainty of continued cash flows. For collateral-dependent impaired loans, it is assumed that collection will result only from the disposition of the underlying collateral.

Loans Evaluated for Impairment

For certain loans evaluated for impairment under accounting impairment guidance, the fair value is based upon the underlying collateral since the loans are collateral-dependent loans for which real estate is the collateral. The fair value measurement process uses independent appraisals and other market-based information, but in many cases it also requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters. As a result, these fair value measurements fall within Level 3 of the hierarchy. When the value of the real estate, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established.

The bank has elected the fair value option for certain callable loans purchased on the secondary market at a significant premium. The fair value option provides an irrevocable option to elect fair value as an alternative measurement for selected financial assets. Fair value is used for both the initial and subsequent measurement of the designated instrument, with the changes in fair value recognized in net income. The fair value of securities is estimated using pricing models that utilize observable inputs, quoted prices for similar securities received from pricing services or discounted cash flows. Accordingly, these assets are classified within Level 2.

Bonds and Notes

Systemwide debt securities are not all traded in the secondary market and those that are traded may not have readily available quoted market prices. Therefore, the fair value of the instruments is estimated by calculating the discounted value of the expected future cash flows. The discount rates used are based on the sum of quoted market yields for the Treasury yield curve and an estimated yield-spread relationship between System debt instruments and Treasury securities. We estimate an appropriate yield-spread, taking into consideration selling group member (banks and securities dealers) yield indications, observed new government-sponsored enterprise debt security pricing and pricing levels in the related U.S. dollar interest rate swap market.

For other notes, fair value is estimated by discounting the expected future cash flows using the current interest rates at which similar loans would be made to borrowers with similar credit risk. The discount rates are based on the current loan origination rates as well as management's estimates of credit risk.

Management has no basis to determine whether the fair values presented would be indicative of the value negotiated in an actual sale and could be less.

Other Property Owned

Other property owned is generally classified as Level 3 of the fair value hierarchy. The process for measuring the fair value of other property owned involves the use of independent appraisals or other market-based information. Costs to sell represent transaction costs and are not included as a component of the asset's fair value.

Information About Recurring and Nonrecurring Level 3 Fair Value Measurements

	Valuation Technique(s)	Unobservable Input
Mortgage-backed securities	Discounted cash flow	Prepayment rate Probability of default Loss severity
Asset-backed securities	Discounted cash flow	Prepayment rate Probability of default Loss severity
Mission-related investments	Discounted cash flow	Prepayment rates
Loans held for sale	Discounted cash flow	Appropriate interest rate yield curve

With regard to impaired loans and OPO, it is not practicable to provide specific information on inputs as each collateral property is unique. System institutions utilize appraisals to value these loans and OPO and take into account unobservable inputs such as income and expense, comparable sales, replacement cost and comparability adjustments.

Information About Recurring and Nonrecurring Level 2 Fair Value Measurements

	Valuation Technique(s)	Input
Federal funds sold	Carrying value	Par/principal
Investment securities available for sale	Quoted prices Discounted cash flow	Price for similar security Constant prepayment rate Appropriate interest rate yield curve
Loans held under the fair value option	Quoted prices Discounted cash flow	Price for similar security Constant prepayment rate Appropriate interest rate yield curve

NOTE 6 — DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

The bank maintains an overall interest rate risk management strategy that incorporates the use of derivative instruments to minimize significant unplanned fluctuations in earnings that are caused by interest rate volatility. The bank’s goal is to manage interest rate sensitivity by modifying the repricing or maturity characteristics of certain balance sheet assets and liabilities so that the net interest margin is not adversely affected by movements in interest rates. The bank considers the strategic use of derivatives to be a prudent method of managing interest rate sensitivity, as it prevents earnings from being exposed to undue risk posed by changes in interest rates.

The bank may enter into derivative transactions to lower funding costs, diversify sources of funding, alter interest rate exposures arising from mismatches between assets and liabilities, or better manage liquidity. Interest rate swaps allow the bank to raise long-term borrowings at fixed rates and swap them into floating rates to better match the repricing characteristics of earning assets. Under interest rate swap arrangements, the bank agrees with other parties to exchange, at specified intervals, payment streams calculated on a specified notional principal amount, with at least one stream based on a specified floating-rate index. The bank may purchase interest rate options, such as caps, in order to reduce the impact of rising interest rates on its floating-rate debt. The bank has interest rate caps and pay fixed swaps in order to reduce the impact of rising interest rates on its floating-rate assets.

The primary types of derivative instruments used and the amount of activity (notional amounts derivatives) during the six months ended June 30, 2017, are summarized in the following table:

	Pay-Fixed Swaps	Interest Rate Caps	Total
Balance at January 1, 2017	\$ 200,000	\$ 170,000	\$ 370,000
Additions	25,000	75,000	100,000
Maturities/Amortizations	-	-	-
Balance at June 30, 2017	\$ 225,000	\$ 245,000	\$ 470,000

To minimize the risk of credit losses, the bank deals with counterparties that have an investment grade or better credit rating from a major rating agency, and also monitors the credit standing and levels of exposure to individual counterparties. In addition, substantially all derivative contracts are supported by bilateral collateral agreements with counterparties requiring the posting of collateral in the event certain dollar thresholds of exposure of one party to another are reached, which thresholds may vary, depending on the counterparty’s credit rating. The bank does not anticipate nonperformance by any of these

counterparties. However, derivative contracts are reflected in the financial statements on a gross basis regardless of the netting agreement. At June 30, 2017, and December 31, 2016, the bank's exposure to counterparties was \$7,082 and \$8,074, respectively. At June 30, 2017, and December 31, 2016, the bank had posted no securities as collateral, nor had any counterparty been required to post collateral.

Derivative - Counterparty Exposure

The following table represents the credit ratings of counterparties to which the bank has credit exposure at June 30, 2017:

	Remaining Years to Maturity			Total	Maturity Distribution Netting	Exposure	Exposure Collateral Held	Net of Collateral
	Less Than One to Five Years	One to Five Years	More Than Five Years					
Moody's Credit Rating								
A1		\$ -	\$ 511	\$ 511	\$ -	\$ 511	\$ -	\$ 511
A1			54	54	-	54	-	54
Aa3			2,228	2,228	-	2,228	-	2,228
Aa3		13	4,274	4,287	-	4,287	-	4,287
Aa2		2	-	2	-	2	-	2
Total		\$ 15	\$ 7,067	\$ 7,082	\$ -	\$ 7,082	\$ -	\$ 7,082

Cash Flow Hedges

The bank's derivative instruments at June 30, 2017, and December 31, 2016, which are designated and qualify as a cash flow hedge, all meet the standards for accounting treatment that presume full effectiveness. Thus, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income.

	Balance Sheet Location	Fair Value June 30, 2017	Fair Value December 31, 2016	Balance Sheet Location	Fair Value June 30, 2017	Fair Value December 31, 2016
Interest rate caps	Other assets	\$ 676	\$ 414	Other liabilities	\$ -	\$ -
Pay fixed swaps	Other assets	6,835	7,660	Other liabilities	(429)	-

	Gain (Loss) Recognized in OCI on Derivatives (Effective Portion) at June 30,			Amount of (Loss) Gain Reclassified From AOCI Into Income (Effective Portion) at June 30,	
	2017	2016		2017	2016
Interest rate caps	\$ 273	\$ (340)	Interest expense	\$ (151)	\$ 456
Pay fixed swaps	1,782	(4,328)	Interest expense	(559)	302

NOTE 7 — CAPITAL

Effective January 1, 2017, the regulatory capital requirements for System banks and associations were modified. The new regulations replaced existing core surplus and total surplus ratios with common equity tier 1, tier 1 capital, and total capital risk-based capital ratios. The new regulations also added a tier 1 leverage ratio and an unallocated retained earnings equivalents (UREE) leverage ratio. The permanent capital ratio continues to remain in effect.

The bank's ratios were as follows:

	Regulatory Minimums	Conservation Buffers*	Total Regulatory Requirement	As of June 30, 2017
Risk-adjusted				
Common Equity Tier 1 Ratio	4.5%	2.5% *	7.0%	9.96%
Tier 1 Capital Ratio	6.0%	2.5% *	8.5%	16.04%
Total Capital Ratio	8.0%	2.5% *	10.5%	16.14%
Permanent Capital Ratio	7.0%	0.0%	7.0%	16.05%
Non-risk-adjusted				
Tier 1 Leverage Ratio	4.0%	1.0%	5.0%	7.26%
UREE Leverage Ratio	1.5%	0.0%	1.5%	2.90%

*The 2.5% capital conservation buffer for the risk-adjusted ratios will be phased in over a three-year period ending on December 31, 2019.

Risk-adjusted assets have been defined by FCA regulations as the Statement of Condition assets and off-balance-sheet commitments adjusted by various percentages, depending on the level of risk inherent in the various types of assets. The primary changes which generally have the impact of increasing risk-adjusted assets (decreasing risk-based regulatory capital ratios) were as follows:

- Inclusion of off-balance-sheet commitments less than 14 months
- Increased risk-weighting of most loans 90 days past due or in nonaccrual status

Risk-adjusted assets are calculated differently for the permanent capital ratio (referred herein as PCR risk-adjusted assets) compared to the other risk-based capital ratios. The primary difference is the deduction of the allowance for loan losses from risk-adjusted assets for the permanent capital ratio.

The ratios are based on a three-month average daily balance in accordance with FCA regulations and are calculated as follows:

- Common equity tier 1 ratio is statutory minimum purchased borrower stock, other required borrower stock held for a minimum of seven years, allocated equities held for a minimum of seven years or not subject to revolvment, unallocated retained earnings, paid-in capital, less certain regulatory required deductions including the amount of allocated investments in other System institutions, and the amount of purchased investments in other System institutions under the corresponding deduction approach, divided by average risk-adjusted assets.
- Tier 1 capital ratio is common equity tier 1 plus noncumulative perpetual preferred stock, divided by average risk-adjusted assets.
- Total capital is tier 1 capital plus other required borrower stock held for a minimum of five years, allocated equities held for a minimum of five years, subordinated debt and limited-life preferred stock greater than five years to maturity at issuance subject to certain limitations, allowance and reserve for credit losses under certain limitations less certain investments in other System institutions under the corresponding deduction approach, divided by average risk-adjusted assets.
- Permanent capital ratio (PCR) is all at-risk borrower stock, any allocated excess stock, unallocated retained earnings, paid-in capital, subordinated debt and preferred stock subject to certain limitations, less certain allocated and purchased investments in other System institutions, divided by PCR risk-adjusted assets.

- Tier 1 leverage ratio is tier 1 capital, including regulatory deductions, divided by average assets less regulatory deductions subject to tier 1 capital.
- UREE leverage ratio is unallocated retained earnings, paid-in capital, allocated surplus not subject to revolvement less certain regulatory required deductions including the amount of allocated investments in other System institutions divided by average assets less regulatory deductions subject to tier 1 capital.

If the capital ratios fall below the minimum regulatory requirements, including the capital conservation and leverage buffer amounts, capital distributions (equity redemptions, dividends, and patronage) and discretionary bonus payments to senior offices are restricted or prohibited without prior FCA approval.

The components of the bank's risk-adjusted capital, based on 90 day average balances, were as follows at June 30, 2017:

(dollars in thousands)	Common equity tier 1 ratio	Tier 1 capital ratio	Total capital ratio	Permanent capital ratio
Numerator:				
Unallocated retained earnings	\$ 793,662	\$ 793,662	\$ 793,662	\$ 793,662
Common Cooperative Equities:				
Purchased other required stock \geq 7 years	247,996	247,996	247,996	247,996
Allocated stock \geq 7 years	36,042	36,042	36,042	36,042
Allocated equities:				
Allocated equities held \geq 7 years	33,171	33,171	33,171	33,171
Noncumulative perpetual preferred stock	-	600,000	600,000	600,000
Allowance for loan losses and reserve for credit losses subject to certain limitations	-	-	9,669	-
Regulatory Adjustments and Deductions:				
Amount of allocated investments in other System institutions	(127,800)	(127,800)	(127,800)	(127,800)
Other regulatory required deductions	(123)	(123)	(123)	(123)
Total	<u>\$ 982,948</u>	<u>\$ 1,582,948</u>	<u>\$ 1,592,617</u>	<u>\$ 1,582,948</u>
Denominator:				
Risk-adjusted assets excluding allowance	\$ 9,868,593	\$ 9,868,593	\$ 9,868,593	\$ 9,868,593
Regulatory Adjustments and Deductions:				
Allowance for loan losses	-	-	-	8,393
Total	<u>\$ 9,868,593</u>	<u>\$ 9,868,593</u>	<u>\$ 9,868,593</u>	<u>\$ 9,876,986</u>

The components of the bank's non-risk-adjusted capital, based on 90 day average balances, were as follows at June 30, 2017:

(dollars in thousands)	Tier 1 leverage ratio	UREE leverage ratio
Numerator:		
Unallocated retained earnings	\$ 793,662	\$ 793,662
Common Cooperative Equities:		
Purchased other required stock ≥ 7 years	247,996	-
Allocated stock ≥ 7 years	36,042	-
Allocated equities:		
Allocated equities held ≥ 7 years	33,171	-
Noncumulative perpetual preferred stock	600,000	-
Regulatory Adjustments and Deductions:		
Amount of allocated investments in other System institutions	(127,800)	(127,800)
Amount of allocated equities in other System institutions		(33,171)
Other regulatory required deductions	(123)	(123)
Total	\$ 1,582,947	\$ 632,568
Denominator:		
Total Assets	\$ 21,806,737	\$ 21,806,737
Regulatory Adjustments and Deductions:		
Regulatory deductions included in tier 1 capital	(127,923)	(127,923)
Total	\$ 21,678,814	\$ 21,678,814

NOTE 8 — EMPLOYEE BENEFIT PLANS

Employees of the bank and district associations participate in either the defined benefit retirement plan or a defined contribution plan (DC Plan) and are eligible to participate in the district's 401(k) plan. Employer contributions to the DC Plan and 401(k) plan are expensed as incurred. The multiemployer structure of the district's defined benefit pension plan results in the recording of this plan only upon combination.

The following table summarizes the components of net periodic benefit costs for the district's defined benefit pension plan and for other postretirement benefit costs for the six months ended June 30:

	Defined Benefit Pension Plans		Other Postretirement Benefits	
	2017	2016	2017	2016
Service Cost	\$ 2,023	\$ 2,346	\$ 644	\$ 641
Interest Cost	8,149	8,417	1,535	1,505
Expected return on plan assets	(7,936)	(8,821)	-	-
Amortization of prior service cost	-	-	(440)	(464)
Amortization of net loss	8,860	8,729	71	90
Net periodic benefit cost	\$ 11,096	\$ 10,671	\$ 1,810	\$ 1,772

As of June 30, 2017, contributions of \$11.6 million have been made to the defined benefit pension plan. The district presently anticipates no additional contributions to fund its pension plan in 2017.

NOTE 9 — ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

Accumulated other comprehensive loss (AOCL) includes the accumulated balance of certain gains, losses or costs for which values are included in assets or liabilities on the balance sheets, but which have not yet been recognized in earnings. For the district, these elements include unrealized gains or losses on the bank's available-for-sale investment portfolio, elements of certain pension and retirement benefit changes, and changes in the value of cash flow derivative instruments.

The following table summarizes the changes in the balance of the components of AOCL for the six months ended June 30, 2017:

	Total	Unrealized Gain (Loss) on Securities	Pension and Other Post- Retirement Benefit Plans	Cash Flow Derivative Instruments
Balance, January 1, 2017	\$ (157,982)	\$ (38,529)	\$ (125,874)	\$ 6,421
Change in unrealized gains on available-for-sale securities				
Change in unrealized gains on investment securities	6,224	6,224		
Net change in unrealized gains on securities	<u>6,224</u>	<u>6,224</u>		
Change in pension and postretirement benefit plans				
Amounts amortized into net periodic expense:				
Amortization of prior service credits	(440)		(440)	
Amortization of net losses	8,949		8,949	
Net change in pension and postretirement benefit plans	<u>8,509</u>		<u>8,509</u>	
Change in cash flow derivative instruments				
Unrealized losses on cash flow derivative instruments	(2,056)			(2,056)
Reclassification of loss recognized in interest expense	710			710
Net change in cash flow derivative instruments	<u>(1,346)</u>			<u>(1,346)</u>
Total other comprehensive income (loss)	13,387	6,224	8,509	(1,346)
Balance, June 30, 2017	\$ (144,595)	\$ (32,305)	\$ (117,365)	\$ 5,075

The following table summarizes the changes in the balance of the components of AOCL for the six months ended June 30, 2016:

	Total	Unrealized Gain (Loss) on Securities	Pension and Other Post- Retirement Benefit Plans	Cash Flow Derivative Instruments
Balance, January 1, 2016	\$ (156,944)	\$ (25,276)	\$ (129,761)	\$ (1,907)
Change in unrealized gains on available-for-sale securities				
Change in unrealized gains on investment securities	44,175	44,175		
Net change in unrealized gains on securities	44,175	44,175		
Change in pension and postretirement benefit plans				
Amounts amortized into net periodic expense:				
Amortization of prior service credits	(464)		(464)	
Amortization of net losses	8,821		8,821	
Net change in pension and postretirement benefit plans	8,357		8,357	
Change in cash flow derivative instruments				
Unrealized losses on cash flow derivative instruments	(4,668)			(4,668)
Reclassification of loss recognized in interest expense	758			758
Net change in cash flow derivative instruments	(3,910)			(3,910)
Total other comprehensive income (loss)	48,622	44,175	8,357	(3,910)
Balance, June 30, 2016	\$ (108,322)	\$ 18,899	\$ (121,404)	\$ (5,817)

The following table summarizes reclassifications from AOCL to the Combined Statements of Comprehensive Income for the six months ended June 30:

Component of AOCL	Amount Reclassified from AOCL		Affected Line in the Statement of Comprehensive Income
	2017	2016	
Amortization of net charges on pension and postretirement benefit plans	\$ 8,491	\$ 8,357	Salaries and employee benefits
Amortization on cash flow hedges	710	758	Interest expense
Total reclassifications	\$ 9,201	\$ 9,115	

NOTE 10 — INCOME TAXES

The bank and its affiliated associations did not have any uncertain tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly increase or decrease within the next 12 months.

NOTE 11 — SUBSEQUENT EVENTS

The district has evaluated subsequent events through August 9, 2017, which is the date the financial statements were issued. There are no other significant subsequent events requiring disclosure as of August 9, 2017.

NOTE 12 — BANK-ONLY FINANCIAL DATA

Condensed financial information for the bank follows. All significant transactions and balances between the bank and associations are eliminated in combination.

Balance sheet data	June 30, 2017	December 31, 2016
Cash	\$ 221,865	\$ 195,479
Federal funds sold and overnight investments	80,739	22,901
