LOUISIANA LAND BANK, ACA
MANAGEMENT'S DISCUSSION AND ANALYSIS

The following commentary reviews the financial performance of the Louisiana Land Bank, ACA (Agricultural Credit Association), referred to as the Association, for the quarter ended June 30, 2016. These comments should be read in conjunction with the accompanying financial statements and the December 31, 2015 Annual Report to Stockholders.

The Association is a member of the Farm Credit System (System), a nationwide network of cooperatively owned financial institutions established by and subject to the provisions of the Farm Credit Act of 1971, as amended, and the regulations of the Farm Credit Administration (FCA) promulgated thereunder.

The consolidated financial statements comprise the operations of the ACA and its wholly-owned subsidiaries. The consolidated financial statements were prepared under the oversight of the Association's audit committee.

Significant Events:

The Association's board of directors (Board) declared a patronage of $5.8 million to eligible stockholders from 2015's earnings. The patronage is in the form of a qualified patronage distribution. The increase in the qualified patronage distribution, compared to prior year, is just under 29 percent. This marks the fourth consecutive year that the Association has increased and paid the cash patronage to eligible borrowers.

On June 30, 2016, the Association entered into a contract to purchase real estate for the purpose of constructing a new office location within the Association's chartered territory. The Association expects final due diligence to be completed in the third quarter of 2016 and construction to start by the fourth quarter of 2016.

The Association continues to collect interest on non-accrual loan assets that have been collected in full. The Association collected $113,425 more in interest income on non-accrual loans during the six months of 2016 compared to the same period in 2015. As the Association's credit quality continues to improve and stabilize, management believes that collection of interest on non-accrual loans will decrease.

The Board and management are committed to maintaining the financial integrity of the Association while offering competitive loan products and services that meet the needs of Louisiana's agricultural producers. Louisiana Land Bank is a proud member of the Farm Credit System, which is celebrating its centennial anniversary this year. Serving the needs of Louisiana's rural and agricultural communities is the priority for Louisiana Land Bank for the next 100 years.

Loan Portfolio:

The Association principally makes and services loans to farmers, ranchers, rural homeowners and certain farm-related businesses. The Association's loan volume consists of long-term farm mortgage loans, production and intermediate-term loans, and farm-related business loans. These loans are available to eligible borrowers with competitive prime- and LIBOR (London InterBank Offered Rate)-based, fixed and adjustable interest rates and loan maturities ranging up to 40 years. Loans serviced by the Association offer several installment payment cycles, the timing of which usually coincides with seasonal cash-flow capabilities of the borrower.

Total loans outstanding at June 30, 2016, including nonaccrual loans and sales contracts, were $711,778,855 compared to $659,483,139 at December 31, 2015, reflecting an increase of 7.9 percent. Nonaccrual loans as a percentage of total loans outstanding were 0.7 percent at June 30, 2016, compared to 0.6 percent at December 31, 2015.

	June 30, 2016	December 31, 2015
Total loans		
Acceptable	98.0	98.2
Other Assets Especially Mentioned	1.0	0.5
Substandard/doubtful	1.0	1.3
	100 %	100 %

The Association recorded $6,303 in recoveries and $0 in charge-offs for the quarter ended June 30, 2016, and $40,655 in recoveries and $3,500 in charge-offs for the same period in 2015. The Association's allowance for loan losses was 0.7 percent and 0.8 percent of total loans outstanding as of June 30, 2016, and December 31, 2015, respectively.

Risk Exposure:

High-risk assets include nonaccrual loans, loans that are past due 90 days or more and still accruing interest, formally restructured loans and other property owned. The following table illustrates the Association's components and trends of high-risk assets.

	June 30, 2016		December 31, 2015	
	Amount	**%**	Amount	%
Nonaccrual	**$ 4,927,010**	**60.2%**	$ 4,136,284	75.7%
Formally restructured	**3,252,004**	**39.8%**	1,324,751	24.3%
Total	**$ 8,179,014**	**100.0%**	$ 5,461,035	100.0%

Results of Operations:

The Association had net income of $2,669,217 and $5,341,704 for the three and six months ended June 30, 2016, as compared to net income of $2,525,304 and $4,600,211 for the same period in 2015, reflecting an increase of 5.7 and 16.1 percent. Net interest income was $4,743,485 and $9,611,268 for the three and six months ended June 30, 2016, compared to $4,561,092 and $8,956,790 for the same period in 2015.

	Six months ended:			
	June 30, 2016		June 30, 2015	
	Average Balance	**Interest**	Average Balance	Interest
Loans	**$ 688,449,493**	**$ 14,973,994**	$ 630,537,765	$ 13,448,998
Total interest-earning assets	**688,449,493**	**14,973,994**	630,537,765	13,448,998
Interest-bearing liabilities	**557,301,992**	**5,362,726**	504,267,834	4,492,208
Impact of capital	**$ 131,147,501**		$ 126,269,931	
Net interest income		**$ 9,611,268**		$ 8,956,790

	2016 Average Yield	2015 Average Yield
Yield on loans	**4.37%**	4.30%
Total yield on interest-earning assets	**4.37%**	4.30%
Cost of interest-bearing liabilities	**1.94%**	1.80%
Interest rate spread	**2.44%**	2.50%
Net interest income as a percentage of average earning assets	**2.81%**	2.86%

	Six months ended: June 30, 2016 vs. June 30, 2015		
	Increase (decrease) due to		
	Volume	**Rate**	**Total**
Interest income - loans	**$ 1,238,644**	**$ 286,352**	**$ 1,524,996**
Total interest income	**1,238,644**	**286,352**	**1,524,996**
Interest expense	**473,750**	**396,768**	**870,518**
Net interest income	**$ 764,894**	**$ (110,416)**	**$ 654,478**

Interest income for the three and six months ended June 30, 2016, increased by $689,326 and $1,524,996, or 10.1 and 11.3 percent respectively, from the same period of 2015, primarily due to an increase in average loan volume. The Association collected $113,425 more in interest income on non-accrual loans during the six months of 2016 compared to the same period in 2015. The collection of interest on non-accrual loans has a positive impact on financial metrics and operations. The collection of interest on non-accrual loans should be considered a one-time, nonrecurring event.

Interest expense for the three and six months ended June 30, 2016 increased by $506,932 and $870,518, or 22.2 and 19.4 percent, from the same period of 2015 due to an increase in interest rates and an increase in average debt volume. Average loan volume for the second quarter of 2016 was $704,856,246, compared to $636,620,485 in the second quarter of 2015. The average net interest rate spread on the loan portfolio for the second quarter of 2016 was 2.35 percent, compared to 2.52 percent in the second quarter of 2015.

The Association's return on average assets for the six months ended June 30, 2016, was 1.52 percent compared to 1.44 percent for the same period in 2015. The Association's return on average equity for the six months ended June 30, 2016, was 7.74 percent, compared to 6.91 percent for the same period in 2015.

Liquidity and Funding Sources:

The Association secures the majority of its lendable funds from the Farm Credit Bank of Texas (the Bank), which obtains its funds through the issuance of Systemwide obligations and with lendable equity. The following schedule summarizes the Association's borrowings.

	June 30, 2016	December 31, 2015
Note payable to the bank	**$ 582,016,837**	$ 526,697,949
Accrued interest on note payable	**943,064**	838,596
Total	**$ 582,959,901**	$ 527,536,545

The Association operates under a general financing agreement (GFA) with the Bank. The current GFA is effective through September 30, 2018. The primary source of liquidity and funding for the Association is a direct loan from the Bank. The outstanding balance of $582,016,837 as of June 30, 2016, is recorded as a liability on the Association's balance sheet. The note carried a weighted average interest rate of 2.04 percent at June 30, 2016. The indebtedness is collateralized by a pledge of substantially all of the Association's assets to the Bank and is governed by the GFA.

The increase in note payable to the Bank and related accrued interest payable since December 31, 2015, is due to the Association's increase in accrual loan volume. The Association's own funds, which represent the amount of the Association's loan portfolio funded by the Association's equity, were $129,154,987 at June 30, 2016. The maximum amount the Association may borrow from the Bank as of June 30, 2016, was $709,150,334 as defined by the GFA. The indebtedness continues in effect until the expiration date of the GFA, which is September 30, 2018, unless sooner terminated by the Bank upon the occurrence of an event of default, or by the Association, in the event of a breach of this agreement by the Bank, upon giving the Bank 30 calendar days' prior written notice, or in all other circumstances, upon giving the Bank 120 days' prior written notice.

Capital Resources:

The Association's capital position increased by $5,331,341 at June 30, 2016, compared to December 31, 2015. The Association's debt as a percentage of members' equity was 4.16:1 as of June 30, 2016, compared to 3.96:1 as of December 31, 2015.

Under regulations governing minimum permanent capital adequacy and other capitalization issues, the Association is required to maintain a minimum adjusted permanent capital of 7.0 percent of risk-adjusted assets as defined by the FCA. The Association's permanent capital ratio at June 30, 2016, was 18.1 percent, which is in compliance with the FCA's minimum permanent capital standard. The Association's core surplus ratio and total surplus ratio at June 30, 2016, were 17.8 and 17.8 percent, respectively, which is in compliance with the FCA's minimum surplus standard.

Significant Recent Accounting Pronouncements:

In June 2016, the Financial Accounting Standards Board (FASB) issued guidance entitled "Measurement of Credit Losses on Financial Instruments." The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses. For public business entities that are not U.S. Securities and Exchange Commission filers this guidance becomes effective for interim and annual periods beginning after December 15, 2020, with early application permitted. The Association is currently evaluating the impact of adoption on its financial condition and results of operations.

In February 2016, the Financial Accounting Standards Board (FASB) issued guidance entitled "Leases." The guidance requires the recognition by lessees of lease assets and lease liabilities on the balance sheet for the rights and obligations created by those leases. Leases with lease terms of more than 12 months are impacted by this guidance. This guidance becomes effective for interim and annual periods beginning after December 15, 2018, with early application permitted. The Association is currently evaluating the impact of adoption on its financial condition and results of operations.

In January 2016, the FASB issued guidance entitled "Recognition and Measurement of Financial Assets and Liabilities." This guidance becomes effective for interim and annual periods beginning after December 15, 2017. The adoption of this guidance is not expected to impact the Association's financial condition or its results of operations.

In August 2014, the Financial Accounting Standards Board (FASB) issued guidance entitled "Presentation of Financial Statements — Going Concern." The guidance governs management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. This guidance requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year after the date the financial statements are issued or within one year after the financial statements are available to be issued, when applicable. Substantial doubt exists if it is probable that the entity will be unable to meet its obligations for the assessed period. This guidance becomes effective for interim and annual periods ending after December 15, 2016, and early application is permitted. Management will be required to make its initial assessment as of December 31, 2016. The Association is currently evaluating a potential disclosure for this recent accounting pronouncement.

In May 2014, the FASB issued guidance entitled, "Revenue from Contracts with Customers." The guidance governs revenue recognition from contracts with customers and requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Financial instruments and other contractual rights within the scope of other guidance issued by the FASB are excluded from the scope of this new revenue recognition guidance. In this regard, a majority of our contracts would be excluded from the scope of this new guidance. In August 2015, the FASB issued an update that defers this guidance by one year, which results in the new revenue standard becoming effective for interim and annual reporting periods beginning after December 15, 2017. The Association is in the process of reviewing contracts to determine the effect, if any, on their financial condition or results of operations.

Regulatory Matters:
On March 10, 2016, the Farm Credit Administration approved a final rule to modify the regulatory capital requirements for System banks and associations. The stated objectives of the proposed rule are as follows:

- To modernize capital requirements while ensuring that the institutions continue to hold sufficient regulatory capital to fulfill their mission as a government-sponsored enterprise,
- To ensure that the System's capital requirements are comparable to the Basel III framework and the standardized approach that the federal banking regulatory agencies have adopted, but also to ensure that the rules recognize the cooperative structure and the organization of the System,
- To make System regulatory capital requirements more transparent and
- To meet the requirements of section 939A of the Dodd-Frank Act.

The final rule is effective on January 1, 2017. The Association is currently evaluating the impact of the recently announced changes.

Relationship With the Farm Credit Bank of Texas:

The Association's financial condition may be impacted by factors that affect the Bank. The financial condition and results of operations of the Bank may materially affect the stockholder's investment in the Association. The Management's Discussion and Analysis and Notes to Financial Statements contained in the 2015 Annual Report of Louisiana Land Bank, ACA more fully describe the Association's relationship with the Bank.

The Texas Farm Credit District's (district) annual and quarterly stockholder reports, as well as those of the Bank, are available free of charge, upon request. These reports can be obtained by writing to Farm Credit Bank of Texas, The Ag Agency, P.O. Box 202590, Austin, Texas 78720, or by calling (512) 483-9204. Copies of the district's quarterly and annual stockholder reports also can be requested by e-mail at *fcb@farmcreditbank.com*. The annual and quarterly stockholder reports for the Bank and the district are also available on its website at *www.farmcreditbank.com.*

The Association's quarterly stockholder reports are also available free of charge, upon request. These reports can be obtained by writing to Louisiana Land Bank, ACA, 2413 Tower Drive, Monroe, La. or calling 318-387-7535. The annual and quarterly stockholder reports for the Association are also available on its website at *www.louisianalandbank.com.* Copies of the Association's quarterly stockholder reports can also be requested by e-mailing *debbie.bond@louisianalandbank.com.*

NOTE 1 — ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES:

The Louisiana Land Bank, ACA (Agricultural Credit Association), referred to as the Association, is a member-owned cooperative that provides credit and credit-related services to or for the benefit of eligible borrowers/stockholders for qualified agricultural purposes. The Association serves the parishes of Acadia, Allen, Ascension, Assumption, Avoyelles, Beauregard, Bienville, Bossier, Caddo, Calcasieu, Caldwell, Cameron, Catahoula, Claiborne, Concordia, DeSoto, East Baton Rouge, East Carroll, East Feliciana, Evangeline, Franklin, Grant, Iberia, Iberville, Jackson, Jefferson, Jefferson Davis, Lafayette, Lafourche, LaSalle, Lincoln, Livingston, Madison, Morehouse, Natchitoches, Orleans, Ouachita, Plaquemines, Pointe Coupee, Rapides, Red River, Richland, Sabine, St. Bernard, St. Charles, St. Helena, St. James, St. John the Baptist, St. Landry, St. Martin, St. Mary, St. Tammany, Tangipahoa, Tensas, Terrebonne, Union, Vermillion, Vernon, Washington, Webster, West Baton Rouge, West Carroll, West Feliciana and Winn in the state of Louisiana. The Association is a lending institution of the Farm Credit System (the System), which was established by Acts of Congress to meet the needs of American agriculture.

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the U.S. (GAAP) for interim financial information. Accordingly, they do not include all of the disclosures required by GAAP for annual financial statements and should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2015, as contained in the 2015 Annual Report to Stockholders.

In the opinion of management, the accompanying consolidated financial statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations and conform with GAAP, except for the inclusion of a statement of cash flows. GAAP require a business enterprise that provides a set of financial statements reporting both financial position and results of operations to also provide a statement of cash flows for each period for which results of operations are provided. In regulations issued by FCA, associations have the option to exclude statements of cash flows in interim financial statements. Therefore, the Association has elected not to include a statement of cash flows in these consolidated financial statements. These interim financial statements should be read in conjunction with the audited financial statements as of and for the year ended December 31, 2015, as contained in the 2015 Annual Report to Stockholders. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year ending December 31, 2016. Descriptions of the significant accounting policies are included in the 2015 Annual Report to Stockholders. In the opinion of management, these policies and the presentation of the interim financial condition and results of operations conform with GAAP and prevailing practices within the banking industry.

In June 2016, the Financial Accounting Standards Board (FASB) issued guidance entitled "Measurement of Credit Losses on Financial Instruments." The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses. For public business entities that are not U.S. Securities and Exchange Commission filers this guidance becomes effective for interim and annual periods beginning after December 15, 2020, with early application permitted. The Association is currently evaluating the impact of adoption on its financial condition and results of operations.

In February 2016, the Financial Accounting Standards Board (FASB) issued guidance entitled "Leases." The guidance requires the recognition by lessees of lease assets and lease liabilities on the balance sheet for the rights and obligations created by those leases. Leases with lease terms of more than 12 months are impacted by this guidance. This guidance becomes effective for interim and annual periods beginning after December 15, 2018, with early application permitted. The Association is currently evaluating the impact of adoption on its financial condition and results of operations.

In January 2016, the FASB issued guidance entitled "Recognition and Measurement of Financial Assets and Liabilities." This guidance affects, among other things, the presentation and disclosure requirements for financial instruments. For public entities, the guidance eliminates the requirement to disclose the methods and significant assumptions used to estimate the fair value of financial instruments carried at amortized cost. This guidance becomes effective for interim and annual periods beginning after December 15, 2017. The adoption of this guidance is not expected to impact the Association's financial condition or its results of operations.

In August 2014, the FASB issued guidance entitled "Presentation of Financial Statements- Going Concern." The guidance governs management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. This guidance requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year after the date the financial statements are issued or within one year after the financial statements are available to be issued, when applicable. Substantial doubt exists if it is probable that the entity will be unable to meet its obligations for the assessed period. This guidance becomes effective for interim and annual periods ending after December 15, 2016, and early application is permitted. Management will be required to make its initial assessment as of December 31, 2016. The Association is currently evaluating a potential disclosure for this recent accounting pronouncement.

In May 2014, the FASB issued guidance entitled, "Revenue from Contracts with Customers." The guidance governs revenue recognition from contracts with customers and requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Financial instruments and other contractual rights within the scope of other guidance issued by the FASB are excluded from the scope of this new revenue recognition guidance. In this regard, a majority of our contracts would be excluded from the scope of this new guidance. In August 2015, the FASB issued an update that defers this guidance by one year, which results in the new revenue standard becoming effective for interim and annual reporting periods beginning after December 15, 2017. The Association is in the process of reviewing contracts to determine the effect, if any, on their financial condition or results of operations.

The consolidated financial statements comprise the operations of the ACA and its wholly-owned subsidiaries. The preparation of these consolidated financial statements requires the use of management's estimates. The results for the quarter ended June 30, 2016, are not necessarily indicative of the results to be expected for the year ended December 31, 2016. Certain amounts in the prior period's financial statements have been reclassified to conform to current financial statement presentation.

NOTE 2 — LOANS AND ALLOWANCE FOR LOAN LOSSES:

A summary of loans follows:

Loan Type	**June 30, 2016 Amount**	December 31, 2015 Amount
Production agriculture:		
Real estate mortgage	**$ 591,189,886**	$ 558,290,493
Production and intermediate term	**47,481,735**	42,096,061
Agribusiness:		
Loans to cooperatives	**5,474,332**	5,262,571
Processing and marketing	**25,108,097**	11,893,789
Farm-related business	**17,152,884**	15,276,840
Communication	**7,581,657**	8,232,747
Energy	**1,423,298**	2,367,715
Water and waste water	**585,459**	635,159
Rural residential real estate	**15,700,381**	15,346,639
Lease receivables	**81,125**	81,125
Total	**$ 711,778,854**	$ 659,483,139

The Association purchases or sells participation interests with other parties in order to diversify risk, manage loan volume and comply with Farm Credit Administration regulations. The following table presents information regarding the balances of participations purchased and sold at June 30, 2016:

	Other Farm Credit Institutions		Non-Farm Credit Institutions		Total	
	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold
Real estate mortgage	$ 14,897,957	$ 36,604,217	$ -	$ -	$ 14,897,957	$ 36,604,217
Production and intermediate term	5,934,704	3,882,885	-	-	5,934,704	3,882,885
Agribusiness	24,975,810	10,869,513	788,504	3,626,734	25,764,314	14,496,247
Communication	7,581,657	-	-	-	7,581,657	-
Energy	1,423,298	-			1,423,298	-
Water & Waste Disposal	585,459	-			585,459	-
Total	$ 55,398,885	$ 51,356,615	$ 788,504	$ 3,626,734	$ 56,187,389	$ 54,983,349

Nonperforming assets (including related accrued interest) and related credit quality statistics are as follows:

	June 30, 2016	December 31, 2015
Nonaccrual loans:		
Real estate mortgage	**$ 3,601,065**	$ 2,931,807
Production and intermediate term	**9,250**	9,250
Agribusiness	**788,504**	881,931
Lease receivables	**528,191**	313,296
Total nonaccrual loans	**4,927,010**	4,136,284
Accruing restructured loans:		
Real estate mortgage	**2,340,099**	1,139,497
Production and intermediate term	**730,954**	-
Rural residential real estate	**180,951**	185,254
Total accruing restructured loans	**3,252,004**	1,324,751
Total nonperforming loans	**8,179,014**	5,461,035
Total nonperforming assets	**$ 8,179,014**	$ 5,461,035

One credit quality indicator utilized by the Association is the Farm Credit Administration Uniform Loan Classification System that categorizes loans into five categories. The categories are defined as follows:

- Acceptable – assets are expected to be fully collectible and represent the highest quality;
- Other assets especially mentioned (OAEM) – assets are currently collectible but exhibit some potential weakness;
- Substandard – assets exhibit some serious weakness in repayment capacity, equity and/or collateral pledged on the loan;
- Doubtful – assets exhibit similar weaknesses to substandard assets; however, doubtful assets have additional weaknesses in existing factors, conditions and values that make collection in full highly questionable; and
- Loss – assets are considered uncollectible.

The following table shows loans and related accrued interest as a percentage of total loans and related accrued interest receivable by loan type as of:

	June 30, 2016		December 31, 2015	
Real estate mortgage				
Acceptable	**98.1**	%	98.0	%

Energy				2,369,066	2,369,066	
Water and Waste Water				635,341	635,341	
Rural residential real estate	-	13,507	13,507	15,415,859	15,429,366	-
Lease receivables	-	-	-	81,125	81,125	-
Total	$ 2,108,785	$ 259,716	$ 2,368,501	$ 662,711,784	$ 665,080,285	$ -

Note: The recorded investment in the receivable is the face amount increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges or acquisition costs, and may also reflect a previous direct write-down of the investment.

A restructuring of a debt constitutes a troubled debt restructuring if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. Troubled debt restructurings are undertaken in order to improve the likelihood of recovery on the loan and may include, but are not limited to, forgiveness of principal or interest, interest rate reductions that are lower than the current market rate for new debt with similar risk, or significant term or payment extensions.

As of June 30, 2016, the total recorded investment of troubled debt restructured loans was $6,157,838, including $2,905,834 classified as nonaccrual and $3,252,004 classified as accrual, with specific allowance for loan losses of $101,985. As of June 30, 2016, commitments to lend funds to borrowers whose loan terms have been modified in a troubled debt restructuring were $0 at period end and $0 at December 31, 2015.

The following tables present additional information regarding troubled debt restructurings, which includes both accrual and nonaccrual loans with troubled debt restructuring designation, that occurred during the six months ended June 30, 2016. The premodification outstanding recorded investment represents the recorded investment of the loans as of the quarter end prior to the restructuring. The postmodification outstanding recorded investment represents the recorded investment of the loans as of the quarter end the restructuring occurred. Loans formally restructured prior to January 1, 2016, were $299,640.

For the Three Months Ended June 30, 2016	Premodification Outstanding Recorded Investment	Postmodification Outstanding Recorded Investment
Troubled debt restructurings:		
Real estate mortgage	$ 1,524,063	$ 1,473,937
Production and intermediate term	687,131	674,540
Total	$ 2,211,194	$ 2,148,477

For the Three Months Ended June 30, 2015	Premodification Outstanding Recorded Investment	Postmodification Outstanding Recorded Investment
Troubled debt restructurings:		
Real estate mortgage	$ 450,114	$ 459,499
Total	$ 450,114	$ 459,499

For the Six Months Ended June 30, 2016	Premodification Outstanding Recorded Investment	Postmodification Outstanding Recorded Investment
Troubled debt restructurings:		
Real estate mortgage	$ 1,524,063	$ 1,473,937
Production and intermediate term	742,603	730,403
Total	$ 2,266,666	$ 2,204,340

For the Six Months Ended June 30, 2015	Premodification Outstanding Recorded Investment	Postmodification Outstanding Recorded Investment
Troubled debt restructurings:		
Real estate mortgage	$ 2,505,531	$ 2,516,385
Total	$ 2,505,531	$ 2,516,385

In restructurings where principal is forgiven, the amount of the forgiveness is immediately charged off. In restructurings where accrued interest is forgiven, the interest is reversed (if current year interest) or charged off (if prior year interest). Charge-offs recorded at the modification date were $0 for the quarter ending June 30, 2016.

The predominant form of concession granted for troubled debt restructuring includes rate reduction and term extension. Other types of modifications include extension of the term, principal or accrued interest reductions, interest rate decreases and delayed payments, among others. At times, these terms might be offset with incremental payments, collateral or new borrower guarantees, in which case we assess all of the modified terms to determine if the overall modification qualifies as a troubled debt restructuring.

The following table provides information on outstanding loans restructured in troubled debt restructurings at period end. These loans are included as impaired loans in the impaired loan table at:

	Loans Modified as TDRs		TDRs in Nonaccrual Status*	
	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015
Real estate mortgage	$ 4,265,125	$ 3,057,646	$ 1,925,026	$ 1,918,149
Production and intermediate term	730,955	-	-	-
Farm Related Business	788,504	881,931	788,504	881,931
Rural residential real estate	373,254	390,980	192,304	205,726
Total	$ 6,157,838	$ 4,330,557	$ 2,905,834	$ 3,005,806

*represents the portion of loans modified as TDRs that are in nonaccrual status

Additional impaired loan information is as follows:

	June 30, 2016			December 31, 2015		
	Recorded Investment	**Unpaid Principal Balance[a]**	**Related Allowance**	Recorded Investment	Unpaid Principal Balance[a]	Related Allowance

NOTE 3 — CAPITAL:

The Association's Board has established a Capital Adequacy Plan (Plan) that includes the capital targets that are necessary to achieve the institution's capital adequacy goals as well as the minimum permanent capital standards. The Plan monitors projected dividends, equity retirements and other actions that may decrease the Association's permanent capital. In addition to factors that must be considered in meeting the minimum standards, the Board also monitors the following factors: capability of management; quality of operating policies, procedures and internal controls; quality and quantity of earnings; asset quality and the adequacy of the allowance for losses to absorb potential loss within the loan and lease portfolios; sufficiency of liquid funds; needs of an institution's customer base; and any other risk-oriented activities, such as funding and interest rate risk, potential obligations under joint and several liability, contingent and off-balance-sheet liabilities or other conditions warranting additional capital. At least quarterly, management reviews the Association's goals and objectives with the Board.

An additional component of equity is accumulated other comprehensive income, which is reported net of taxes, is as follows:

June 30, 2016	**Before Tax**	**Deferred Tax**	**Net of Tax**
Nonpension postretirement benefits	**$ 2,964,822**	**$ -**	**$ 2,964,822**
Total	**$ 2,964,822**	**$ -**	**$ 2,964,822**

June 30, 2015	Before Tax	Deferred Tax	Net of Tax
Nonpension postretirement benefits	$ 3,127,022	$ -	$ 3,127,022
Total	$ 3,127,022	$ -	$ 3,127,022

The Association's accumulated other comprehensive income (loss) relates entirely to its nonpension other postretirement benefits. Amortization of prior service (credits) cost and of actuarial (gain) loss are reflected in "Salaries and employee benefits" in the Consolidated Statement of Comprehensive Income. The following table summarizes the changes in accumulated other comprehensive income (loss) for the six months ended June 30:

	2016	2015
Accumulated other comprehensive income (loss) at January 1	**$(506,680)**	$(802,940)
Amortization of prior service (credit) costs included in salaries and employee benefits	**(25,505)**	33,239
Amortization of actuarial (gain) loss included in salaries and employee benefits	**17,885**	(25,547)
Other comprehensive income (loss), net of tax	**(7,620)**	7,692
Accumulated other comprehensive income at June 30	**$ (514,300)**	$(795,248)

NOTE 4 — INCOME TAXES:

Louisiana Land Bank, ACA conducts its business activities through two wholly-owned subsidiaries. Long-term mortgage lending activities are conducted through a wholly-owned FLCA subsidiary which is exempt from federal and state income tax. Short- and intermediate-term lending activities are conducted through a wholly-owned PCA subsidiary. The PCA subsidiary and the ACA holding company are subject to income tax. Louisiana Land Bank, ACA operates as a cooperative that qualifies for tax treatment under Subchapter T of the Internal Revenue Code. Accordingly, under specified conditions, Louisiana Land Bank, ACA can exclude from taxable income amounts distributed as qualified patronage dividends in the form of cash, stock or allocated retained earnings. Provisions for income taxes are made only on those taxable earnings that will not be distributed as qualified patronage dividends. Deferred taxes are recorded at the tax effect of all temporary differences based on the assumption that such temporary differences are retained by the institution and will therefore impact future tax payments. A valuation allowance is provided against deferred tax assets to the extent that it is more likely than not (more than 50 percent probability), based on management's estimate, that they will not be realized

NOTE 5 — FAIR VALUE MEASUREMENTS:

FASB guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability. See Note 13 to the 2015 Annual Report to Stockholders for a more complete description.

Assets and liabilities measured at fair value on a nonrecurring basis for each of the fair value hierarchy values are summarized below:

June 30, 2016	**Fair Value Measurement Using**			**Total Fair Value**	**Total Gains (Losses)**
	Level 1	**Level 2**	**Level 3**		
Assets:					
Loans*	**$ -**	**$ -**	**$4,789,495**	**$4,789,495**	**$ -**

December 31, 2015	Fair Value Measurement Using			Total Fair Value	Total Gains (Losses)
	Level 1	Level 2	Level 3		
Assets:					
Loans*	$ -	$ -	$ 4,028,781	$ 4,028,781	$ -

*Represents the fair value of certain loans that were evaluated for impairment under authoritative guidance "Accounting by Creditors for Impairment of a Loan." The fair value was based upon the underlying collateral since these were collateral-dependent loans for which real estate is the collateral.

Sensitivity to Changes in Significant Unobservable Inputs

For recurring fair value measurements categorized within Level 3 of the fair value hierarchy, the significant unobservable inputs used in the fair value measurement of the mortgage-backed securities are prepayment rates, probability of default and loss severity in the event of default. Significant increases (decreases) in any of those inputs in isolation would result in a significantly lower (higher) fair value measurement.

Generally, a change in the assumption used for the probability of default is accompanied by a directionally similar change in the assumption used for the loss severity and a directionally opposite change in the assumption used for prepayment rates.

Quoted market prices are generally not available for the instruments presented below. Accordingly, fair values are based on internal models that consider judgments regarding anticipated cash flows, future expected loss experience, current economic conditions, risk characteristics of various financial instruments and other factors. These estimates involve uncertainties and matters of judgment, and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Valuation Techniques

As more fully discussed in Note 13 to the 2015 Annual Report to Stockholders, authoritative guidance establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The following represent a brief summary of the valuation techniques used for the Association's assets and liabilities. For a more complete description, see Notes to the 2015 Annual Report to Stockholders.

Loans Evaluated for Impairment

For certain loans evaluated for impairment under FASB impairment guidance, the fair value is based upon the underlying real estate collateral since the loans were collateral-dependent. The fair value measurement process uses independent appraisals and other market-based information, but in many cases it also requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters. As a result, a majority of these loans have fair value measurements that fall within Level 3 of the fair value hierarchy. When the value of the real estate, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established. The fair value of these loans would fall under Level 2 of the hierarchy if the process uses independent appraisals and other market-based information.

Other Property Owned

Other property owned is generally classified as Level 3 of the fair value hierarchy. The process for measuring the fair value of the other property owned involves the use of independent appraisals and other market-based information. Costs to sell represent transaction costs and are not included as a component of the asset's fair value. As a result, these fair value measurements fall within Level 3 of the hierarchy.

Loans

Fair value is estimated by discounting the expected future cash flows using the Associations' current interest rates at which similar loans would be made to borrowers with similar credit risk. The discount rates are based on the Associations' current loan origination rates as well as management's estimates of credit risk. Management has no basis to determine whether the fair values presented would be indicative of the value negotiated in an actual sale and could be less.

For purposes of estimating fair value of accruing loans, the loan portfolio is segregated into pools of loans with homogeneous characteristics. Expected future cash flows, primarily based on contractual terms, and interest rates reflecting appropriate credit risk are separately determined for each individual pool.

The fair value of loans in nonaccrual status that are current as to principal and interest is estimated as described above, with appropriately higher interest rates which reflect the uncertainty of continued cash flows. For collateral-dependent impaired loans, it is assumed that collection will result only from the disposition of the underlying collateral.

NOTE 6 — EMPLOYEE BENEFIT PLANS:

The following table summarizes the components of net periodic benefit costs of nonpension other postretirement employee benefits for the six months ended June 30:

	Other Benefits	
	2016	2015
Service cost	**$ 33,939**	$ 37,267
Interest cost	**67,592**	69,068
Amortization of prior service (credits) costs	**(25,505)**	(25,549)
Amortization of net actuarial (gain) loss	**17,883**	33,239
Net periodic benefit cost	**$ 93,909**	$ 114,025

The Association's liability for the unfunded accumulated obligation for these benefits at June 30, 2016, was $2,964,822 and is included in "Other Liabilities" in the balance sheet.

The structure of the district's defined benefit pension plan is characterized as multiemployer since the assets, liabilities and cost of the plan are not segregated or separately accounted for by participating employers (bank and associations). The Association recognizes its amortized annual contributions to the plan as an expense. As of June 30, 2016, $172,991 of contributions have been made.

NOTE 7 — COMMITMENTS AND CONTINGENT LIABILITIES:

The Association is involved in various legal proceedings in the normal course of business. In the opinion of legal counsel and management, there are no legal proceedings at this time that are likely to materially affect the Association.

NOTE 8 — SUBSEQUENT EVENTS:

The Association has evaluated subsequent events through August 3, 2016 which is the date the financial statements were issued. There are no other significant events requiring disclosure as of August 3, 2016.
